FYI. I got the first email (below) yesterday and sent it on to BR as offset operator. I talked to Dave Clark, BR's senior Geologist in that area today and he indicated that BR was in discussion with Energen who is the other operator most affected.

Folks,  
At this point in time, BLM would oppose KOCH's proposal since they have not provided any technical justification to our office. Even though our MOU with the NMOCD has expired, we would expect the OCD to deny KOCH's request absent BLM's concurrence. Steve, if you wouldn't mind, please let the OCD folks in Santa Fe know our position... Thanks JL

I will need to see the application. I will oppose if it does not have a 1 mile buffer zone.

Subject: Koch 80-acre infill

Hope all is well with you. I was looking at NMOCD docket for Feb 21 and saw Koch application in 29-9 for 80-acre infill in six spacing units.

We are concerned with precedent this would set. Have you looked at this? I know Koch was pushing for infill at the last CMC meeting but didn't get much support from the group. I think it would be helpful to get other operators reaction. Let me know your thoughts.

Thanks, Bill
