

JOHN SHOMAKER & ASSOCIATES, INC.

WATER-RESOURCE AND ENVIRONMENTAL CONSULTANTS

2703 BROADBENT PARKWAY NE, SUITE B
ALBUQUERQUE, NEW MEXICO 87107
(505) 345-3407, FAX (505) 345-9920

RESUME

STEVE T. FINCH, JR.

EDUCATION

- 1991 Northern Arizona University, Flagstaff, AZ
Master of Science Degree in Geology, thesis topic in Aqueous Geochemistry
- 1985 Sul Ross State University, Alpine, TX
Bachelor of Science Degree in Geology with Chemistry minor

PROFESSIONAL ACTIVITIES

- 1994-present John Shomaker & Associates, Inc., Albuquerque, NM
Senior Hydrogeologist-Geochemist (Principal-Vice President)
- 1990-1994 John W. Shomaker, Inc., Albuquerque, NM
Hydrogeologist-Geochemist
- 1988-1990 Bilby Research Center Geochemistry Lab, Northern Arizona University
Geochemist
- 1985-1988 Mineral Exploration in Arizona and southwestern U.S.
Contract Geologist
- 1981-1982 Atkinson Petroleum, San Antonio, TX
Apprentice Geologist

Responsibilities include

- hydrogeologic investigations related to ground water resource development and water quality issues, aquifer test and interpretation, water-quality monitoring and sampling plans, ground-water flow and contaminant transport modeling, and well-site geology.

Summary of major projects

- analysis of deep well injection on formation damage and aquifer protection, Northern San Juan Basin
- develop ground-water flow model for the Florida Mesa area, La Plata County, Colorado to evaluate effects from proposed developments.
- evaluation of rehabilitation options for the city well field, City of Santa Fe, New Mexico
- aquifer storage and recovery feasibility analysis and pilot study for La Luz Well Field, City of Alamogordo, New Mexico
- develop ground water flow model for the Jornada Basin, Dona Ana County, New Mexico
- performance evaluation of Tailings Pond 7 Interceptor Well Field, Chino Mines Company, Hurley, New Mexico.
- development of regional ground-water flow model of the Ortiz Mining Grant area in support of water-right transfer and modification.

- sustainability analysis of ground-water supply and ground water exploration program for Cobre Mining Company Operations.
- water-resource assessment for the Tularosa-Salt Basins and Alamogordo 40-year water plans.
- Project manager on hydrogeologic studies relating to La Luz Well Field, City of Alamogordo
- Desalination feasibility study for the Tularosa Basin, subcontracted to Livingston Associates.
- Hydrogeologic analysis and ground-water flow model of Eldorado Area, Santa Fe County, New Mexico.
- Hydrogeologic analysis and development of ground water flow model for Wild Horse Flat area, Culberson County Groundwater Conservation District, Far West Texas.
- Hydrogeologic analysis and development of ground-water flow model of Salt Underground Water Basin, Otero County, New Mexico.
- Hydrogeologic framework for the Igneous-Bolson Groundwater Availability Model, Far West Texas, subcontracted to LBG-Guyton.
- Project manager for the drilling, construction, development, and testing of Buckman Wells 10 through 13, City of Santa Fe, New Mexico.
- Development of regional ground-water flow model of the Eastern Tularosa Basin in support of City of Alamogordo's applications T-3825 et al.
- Hydrogeologic and water-right evaluation of irrigated lands in Estancia Basin as alternative water supply for City of Santa Fe.
- Hydrogeologic analysis and ground-water flow model of Jal basin, City of Jal, New Mexico.
- Development of 40-year water plan for City of Jal, New Mexico.
- Hydrogeologic and ground-water sustainability analysis for Chino Mines Company, and development of regional ground-water flow and solute transport model of the Mimbres Basin, southwestern, New Mexico.
- Project manager for the development of a ground-water flow and solute transport model of the Griggs and Walnut Superfund Site, Lac Cruces, New Mexico.
- Hydrogeologic analysis and development of water supply for the proposed Galisteo Basin Preserve Community, Santa Fe County, New Mexico.

PROFESSIONAL SOCIETIES AND CERTIFICATIONS

- New Mexico Environment Department, Underground Storage Tank Bureau
Certified Scientist, Certificate No. 003
- Texas Board of Professional Geoscientist
Certified Professional Geoscientist, #5302
- American Institute of Professional Geologists
Certified Professional Geologist; Certificate No. 9590
- International Association of Geochemistry and Cosmochemistry
- American Water Resources Association, New Mexico Section (Past President)
- National Ground Water Association

PROFESSIONAL DEVELOPMENT

- Course work at University of New Mexico: Vadose-Zone Hydrology (Spring 1993)
- Environmental Education Enterprises' course on: modeling groundwater flow and contaminant transport (July 1995)
- Visual MODFLOW: The most widely used software package for MODFLOW, MODPATH, and MT3D, National Ground Water Association, (Feb. 1999)
- Environmental Isotopes in Ground Water Resource and Contaminant Hydrogeology, National Ground Water Association course #394, (March 2002)
- CLE INTERNATIONAL, New Mexico Water Law, Santa Fe, New Mexico (Aug. 2005)
- Applications of Ground Water Geochemistry, Scottsdale, Arizona, National Ground Water Association course #485, (Nov. 2006)

- Author and Co-Author of numerous ground-water studies available in the public record as consultant's reports.**

EXPERT TESTIMONY

Provided sworn testimony before
Bernalillo County Commission
La Plata County Commission
Santa Fe County Commission

Provided sworn testimony in administrative proceedings before hearing examiners of
New Mexico State Engineer Office
New Mexico Oil and Gas Conservation Commission
