

volume of 2,450 to 4,075 barrels per day. The subject lands are located approximately one-half mile south of Eunice, New Mexico.

15. **CASE 14203:** (Continued from the October 30, 2008 Examiner Hearing.)
Application of COG Operating LLC for Designation of a Non-standard Spacing Unit and for Compulsory Pooling, Chaves County, New Mexico (Taurus Federal Well No. 1). Applicant seeks an order consolidating the 40-acre spacing units within the S/2 S/2 of Section 10, Township 15 South Range 31 East, NMPM and designating the consolidated units as a 160-acre± non-standard oil spacing and proration unit in the Wolfcamp formation (Wildcat) for Applicant's horizontal drilling project area. Applicant further seeks the compulsory pooling of all interests in the Wolfcamp formation underlying the S/2 S/2 of said Section 10 to be dedicated to its Taurus Federal Well No. 1 to be drilled horizontally from a surface location 330' from the South line and 330' from the West line to a bottom hole location 330' from the South line and 330' from the East line of Section 10 to a depth sufficient to test the Wolfcamp formation. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of COG Operating LLC as operator and a charge for risk involved in drilling the well. The proposed well and lands are located approximately 12 miles northeast of Loco Hills, New Mexico.

16. **CASE 14204:** (Continued from the October 30, 2008 Examiner Hearing.)
Amended Application of COG Operating LLC for Designation of a Non-standard Spacing Unit and for Compulsory Pooling, Chaves County, New Mexico (Taurus State Com Well No. 2). Applicant seeks an order consolidating the 40-acre spacing units within the N/2 S/2 of Section 10, Township 15 South Range 31 East, NMPM and designating the consolidated units as a 160-acre± non-standard oil spacing and proration unit in the Wolfcamp formation (Wildcat) for Applicant's horizontal drilling project area. Applicant further seeks the compulsory pooling of all interests in the Wolfcamp formation underlying the N/2 S/2 of said Section 10 to be dedicated to its Taurus State Com Well No. 2 to be drilled horizontally from a surface location 1980' from the South line and 330' from the East line to a bottom hole location 1980' from the South line and 430' from the West line of Section 10 to a depth sufficient to test the Wolfcamp formation. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of COG Operating LLC as operator and a charge for risk involved in drilling the well. The proposed well and lands are located approximately 12 miles northeast of Loco Hills, New Mexico.

17. **CASE 14208:** (Continued from the October 30, 2008 Examiner Hearing.)
Application of COG Operating LLC for Designation of a Non-standard Spacing Unit and for Compulsory Pooling, Chaves County, New Mexico (Orion Federal Well No. 2). Applicant seeks an order consolidating the 40-acre spacing units within the N/2 S/2 of Section 13, Township 15 South Range 31 East, NMPM and designating the consolidated units as a 160-acre± non-standard oil spacing and proration unit in the Wolfcamp formation (wildcat) for Applicant's horizontal drilling project area. Applicant further seeks the compulsory pooling of all interests in the Wolfcamp formation underlying the N/2 S/2 of said Section 13 to be dedicated to its Orion Federal Well No. 2 to be drilled horizontally from a surface location 1980' from the South line and 330' from the East line to a bottom hole location 1980' from the South line and 330' from the West line to a depth sufficient to test the Wolfcamp formation. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of COG Operating LLC as operator and a charge for risk involved in drilling the well. The proposed well and lands are located approximately 12 miles northeast of Loco Hills, New Mexico.
