Applicant, in the above-styled cause, seeks an order pooling all mineral interests from the surface through the Abo formation underlying the SW/4 of Section 21, Township 5 South, Range 25 East, to be dedicated to a well to be drilled at a standard location thereon. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well.

CASE 7871: Application of Yates Petroleum Corporation for an Exception to Rule 104.C.I., Eddy County, New Mexico. Applicant, in the above-styled cause, seeks an exception to Rule 104.C.I. to permit applicant to develop the Eagle Creek - San Andres Pool with more than four wells on each 40-acre tract.

CASE 7872: Application of Yates Petroleum Corporation for salt water disposal, Lea County, New Mexico. Applicant, in the above-styled cause, seeks authority to dispose of produced salt water into the Lower Cisco (Permo-Upper Penn) formation in the perforated interval from 10,071 feet to 10,136 feet and from 10,156 feet to 10,350 feet in the Canyon (Permo-Upper Penn) formation in its Swan "VB" State Well No. 2 located 1,980 feet from the South and East lines of Section 21, Township 14 South, Range 33 East.

CASE 7865: (Continued and Readvertised)

Application of Julian Ard for a non-standard proration unit or, in the alternative, compulsory pooling, Chaves County, New Mexico. Applicant, in the above-styled cause, seeks approval of a 160-acre non-standard proration unit in the Atoka formation comprising the SE/4 of Section 4, Township 8 South, Range 27 East, or, in the alternative, seeks approval to pool all mineral interests in the Atoka formation underlying the E/2 of Section 4, Township 8 South, Range 27 East, to be dedicated to a well to be drilled at a standard location thereon. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well.

CASE 7883: Application of Basin Minerals, Inc. for compulsory pooling, San Juan County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests in the Mesaverde formation underlying the W/2 of Section 27, Township 31 North, Range 11 West, to be dedicated to a well to be drilled at a standard location thereon. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well.

CASE 7884: Application of Basin Minerals, Inc. for compulsory pooling, San Juan County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests in the Pictured Cliffs formation underlying the NW/4 of Section 27, Township 31 North, Range 11 West, to be dedicated to a well to be drilled at a standard location thereon. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well.

CASE 7885: Application of Basin Minerals, Inc. for compulsory pooling, San Juan County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests in the Pictured Cliffs formation underlying the SW/4 of Section 27, Township 31 North, Range 11 West, to be dedicated to a well to be drilled at a standard location thereon. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well.

CASE 7857: (Continued from May 11, 1983, Examiner Hearing)

Application of Clements Energy Company for an amendment to Order No. R-2359, Lea County, New Mexico. Applicant, in the above-styled cause, seeks an amendment to Division Order No. R-2359 deleting the requirement that wells be located in the NE/4 or SW/4 of any governmental section in the East Saunders-Permo Pennsylvanian Pool so that all wells may be drilled 150 feet from the center of any quarter-quarter section. Applicant also seeks the promulgation of an administrative procedure for the approval of unorthodox well locations.

CASE 7886: Application of Union Oil Company of California for salt water disposal, Eddy County, New Mexico. Applicant, in the above-styled cause, seeks authority to dispose of produced salt water into the Delaware formation in the perforated interval from 4822 feet to 4838 feet in its Wersell Federal Well No. 1 located 810 feet from the North line and 1980 feet from the West line of Section 4, Township 22 South, Range 27 East.

CASE 7887: Application of Morris R. An'well for compulsory pooling, Lea County, New Mexico. Applicant, in the above-styled cause, seeks an order pooling all mineral interests from the surface to the base of the Abo formation underlying the SW/4 SE/4 of Section 28, Township 19 South, Range 38 East, to be dedicated to a well to be drilled at a standard location thereon. Also to be considered will be the cost of drilling and completing said well and the allocation of the cost thereof as well as actual operating costs and charges for supervision, designation of applicant as operator of the well and a charge for risk involved in drilling said well.

CASE 7888: Application of Cabana Oil Corporation for an amendment of Division Order No. R-7220, Lea County, New Mexico. Applicant, in the above-styled cause, seeks the amendment of Division Order No. R-7220 which authorized a 66.87-acre non-standard Abo proration unit comprising the SE/4 SW/4 and Lot 4 of Section 32, Township 17 South, Range 38 East, and an unorthodox location 1000 feet from the South line and 1080 feet from the East line of said Section 32. Applicant now seeks approval of the above described unorthodox location and non-standard proration unit in the Yeso formation.

shutting-in of wells which are six times over-produced would be suspended for the period from date of reclassification through December of 1983 to accomodate those wells which may be subject to shut-in as the result of assignment of lower than normal allowables during the first seven months of 1983. In the alternative to reclassification of all wells as marginal, applicant proposes that a level of production of 33 Mcf per day, or other appropriate level, be established below which wells would automatically retain their classification as marginal.
