Kip,

This is what I have in my draft, that does not mean the attorney will not make changes. Let me know if this works.

Thanks
Charlie

McElvain will close the pits at the following 3 well sites and file form C-144 with any attachments by June 15, 2008. In the event of weather or access issues, McElvain will report and discuss both the issue and the action to be taken to OCD before the June 15, 2008 deadline.

- a. Cougar Com 33-1B API 30-039-29719
- b. Cougar Com 33-1M API 30-039-26669
- c. Cougar Com 4-2A API 30-039-26668

Charlie,

I spoke with John Steuble. His agreement with the landowner for the Cougar 33-1M restricts our physical access to June 1 through August 15, 2008, with the understanding we will not bring our equipment in while the ground is still soft.

Could we change the deadline for the Cougar Com 4-2A and Cougar Com 33-1M to August? Or have the order allow a delay if weather/surface conditions are an issue?

Kip

Kip,

Greetings

The pit information is in Rule 50 and the guidelines both can be found on our web site @ <http://www.emnrd.state.nm.us/OCD/>. Click on Rules and go to Rule 50 to get to the pit rules and from our home page click on publications, click on environmental hand book, scroll down click on Miscellaneous Guidelines and

BEFORE THE OIL CONSERVATION DIVISION
Santa Fe, New Mexico
Case No. 14186 Exhibit No. 7
Submitted by:
McElvain Oil & Gas Properties, Inc.
Hearing Date: October 15, 2008

select pit and below-grade tank guidelines to get to the guidelines

For Drilling pits we use the date the last casing string is cemented in the hole

Hope this helps
Charlie

Charlie,

I've searched the website but can't find the captioned guidance document you referred me to. As a reminder, I am trying to find the connection to NMOCD's position that "cessation of use" under Rule 50 F is the same as setting and cementing the production casing.

Thanks

Kip Joda
