Dear Sir/Madam:

On January 17, 2008 the Canyon Largo Unit revised Twenty-Ninth Expansion for the Dakota formation was submitted to our office for approval. The approval for this revised expansion was accomplished on August 29, 2008. The submission of this revised expansion caused the following Communitization Agreement (CA) to become obsolete due to the inclusion into the Dakota participating area.

**NMNM-117692, Sec. 9, T25N, R6W, E/2 dedication for Canyon Largo Unit #483. Effective 5/3/2006**

This agreement communitized particular acres of Federal and Fee lands within the Canyon Largo Unit as to natural gas and associated liquid hydrocarbons producible from the Dakota formation. The term of the agreement was for 2 years and for so long thereafter as communitized substances are produced in paying quantities.

Our records indicate that the well dedicated to the described agreements were completed and that the public interest requirement for the communitization agreement, pursuant to 43 CFR 3105.2-3, have been met.

The termination effective date of this CA is June 1, 2006, this date being the effective date of the 29th expansion to the Dakota formation. All subject Federal leases involved with this CA are held by the Unit. All indicated wells will report to 891001059B (Dakota participating area for the Canyon Largo Unit) from effective termination date of the CA.

If you have any questions, please contact me at the above address or telephone (505) 599-8922.

Sincerely,
