Base of Wolfcamp is sufficient. Thanks.

I just called you, no answer. Your application said.... pooling uncommitted interest owners from the surface to the base of the strawn formation, even though the well is now recompleted to the Wolfcamp formation. Should we then say from the surface to the base of the Wolfcamp instead of the Strawn? Let me read or hear from you ASAP to continue this draft. Thank you.

Richard

Thank you. The order in case No. 14383 (Apache Corporation) should have been signed by Mark this afternoon, and is there for your taking if your client is in a hurry. Have a nice day.

But the well even though re-completed in the Wolfcamp formation is not yet producing from that z one because of its un-orthodox location ?

The well was originally drilled to the Strawn, and was at an orthodox location in that zone. It was unsuccessful there and re-completed uphole in the Wolfcamp, which is spaced on 160 acres under the order I referenced. The location is unorthodox in the Wolfcamp.

Jim:

Thank you. Has the well been drilled? What is exactly your depth objective? In which pool is the well un-orthodox?
Thank you.

Richard: Order No. R-4657 provides for 160 acre spacing in the Wolfcamp foramtion.

I didn't even notice the location -- the location was approved because the well was orthodox for the deeper zone originally tested. It is unorthodox, and I will apply for approval administratively.

Jim:

Okay. However, what order numbers spaced this pool on 160 acres? Your application ignored this fact. Would you be needing a non-standard location for the well? Thank you.

Subject: Pride Energy Co. pooling

Richard: All parties being pooled were located, so there's no need for an escrow provision.
