**STATEMENT OF THE CASE**

**APPLICANT**

Cimarex Energy Co. seeks an order approving a 159.29-acre non-standard oil spacing and proration unit (project area) in the Abo/Wolfcamp formation comprised of Lot 4, SE/4SW/4, and S/2SE/4 (the S/2S/2) of Section 18, Township 15 South, Range 31 East, NMPM. Applicant further seeks the pooling all mineral interests from the surface to the base of the Abo/Wolfcamp formation underlying (i) the SE/4SE/4 of Section 18 to form a standard 40 acre oil spacing and proration unit, and (ii) the S/2S/2 of Section 18 to form a non-standard 159.29-acre oil spacing and proration unit (project area), for any formations and/or pools developed on 40 acre spacing

within that vertical extent. The units are to be dedicated to the Franklin 18 Fed. Com Well No. 4, a horizontal well to be drilled at a surface location 375 feet from the south line and 375 feet from the east line, with a terminus 375 feet from the south line and 375 feet from the west line, of Section 18. Also to be considered will be the cost of drilling and completing the well and the allocation of the cost thereof, as well as actual operating costs and charges for supervision, designation of Cimarex Energy Co. of Colorado as operator of the well, and a 200% charge for the risk involved in drilling and completing the well.
