### REQUEST FOR CONTINUANCE

This matter is currently scheduled to proceed to hearing before a Division Examiner on June 11, 2009. The Oil Conservation Division, specifically the OCD Environmental Bureau, has performed a preliminary review of the materials provided by the applicant. It is the opinion of the Environmental Bureau that, in its current form, the application has some deficiencies. However, the Bureau feels that it is possible for Anadarko to remedy the deficiencies in its application, and the OCD/Environmental Bureau is willing to work with the applicant to provide it with recommendations for doing so. The OCD therefore requests that this matter be continued to the July 9, 2009 docket to permit additional time for addressing these issues.

Respectfully submitted  
this 4<sup>th</sup> day of June, 2009 by
