OIL CONSERVATION DIV.

CASE NO. 12949

**APPLICATION FOR PLUGGING AND FORFEITURE OF BOND**

1. Skyline Energy, L.L.C. (“Operator”) is the operator of the following well located in Lea County, New Mexico:

State B-AC-1 Well No. 2 (API No. 30-025-01057), located 660 feet from the North line and 1980 feet from the East line (Unit B) of Section 11, Township 12 South, Range 33 East, Lea County, New Mexico.

2. Operator has posted a single-well surety bond in the amount of \$10,000 in compliance with NMSA 1978, Sec. 70-2-14 and O.C.D. Rule 101, which bond is conditioned upon compliance with the statutes of the State of New Mexico and the Rules of the Oil Conservation Division (“Division”) with respect to the proper plugging and abandonment of said well. XL Specialty Insurance Company is the surety on said bond, which is numbered SB0040746.

3. The above-described well was permitted as an injection well in 1987, but has not been used for injection since prior to 2000. The well is no longer usable for

beneficial purposes. No permit for temporary abandonment of the said well has been requested by the Operator or approved by the Division.

4. By virtue of Operator's failure to use the well for production or other beneficial purposes or to secure a current temporary abandonment permit, the well is presumed abandoned, and is required to be plugged.

5. Division Rule 201.B, issued pursuant to the authority of NMSA 1978, Secs. 70-2-12 and 70-2-14, requires that wells that are inactive for more than one year or are no longer usable for beneficial purposes be properly plugged.

6. Division Rule 101.M, issued pursuant to the same authority, authorizes the Division, after notice and hearing, to order the operator to plug and abandon any well or wells not in compliance with Rule 201, and to direct the Division to cause such well or wells to be plugged in accordance with a Division approved plugging program if, after the time provided in such order, the operator and its surety, if any, have failed to do so.

WHEREFORE, the Supervisor of District I of the Division hereby applies to the Director to enter an order:

- A. Determining whether the subject well should be plugged and abandoned.
- B. Upon a determination that the well should be plugged, directing the Operator to plug the well without delay, in accordance with a division-approved plugging program, and to cause the site thereof to be remediated in accordance with Division Rule 202.B(3).
- C. Further ordering that if the Operator or its surety fails to plug and abandon the well as ordered by the Director, the Division be authorized: (i) to plug

the subject well in accordance with a division-approved plugging program and to cause the site to be remediated; (ii) to declare forfeit the bond furnished by the Operator to the extent necessary to fully reimburse the Division for its expenses incurred in accomplishing the foregoing; and (iii) to take necessary and appropriate measures to recover from the Operator any costs of plugging the subject well and of site remediation in excess of the amount of the bond, if any.

- D. For such other and further relief as the Division deems just and proper under the circumstances.

RESPECTFULLY SUBMITTED,

---
