First of all, I apologize that you have to deal with me. Second, I just found a list of stuff I owe the Division on Chi. I will get it for you.

Jim

Dear Jim

This seems to be my day to give you work assignments!

Richard has asked me to review these case files. It seems that you indicated you would provide water analyses on the proposed injection water from the Capitan Reef (TR Page 77) and on the formation water in the Delaware (TR Page 80). This was at the hearing on 11-12-09. However, I did not find anything relating to either of these items in the case files.

We will need to get this information before we can release an order in these cases.

Sincerely

David
