Re: Application for forced pooling  
Case 7749

Gentlemen:

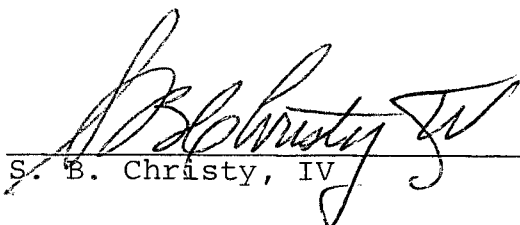

As a working interest owner involved in the captioned I have not received formal notice of an application for forced pooling in the NE $\frac{1}{4}$  Section 18, Township 9 South, Range 27 East, N.M.P.M., Chaves Co., New Mexico, as filed by Mr. Jack Grynberg or his associates. However, I do have indirect knowledge of the case which I understand has been set for examiner hearing on January 5, 1983.

I am a working interest owner involved in the NE $\frac{1}{4}$  of said Section 18, and I understand that Harvey E. Yates Company has also filed an application for forced pooling (Case 7763) apparently relating to the Atoka Formation.

I feel it would be advantageous to all parties, and, in the interest of conservation and the prevention of waste, to a point Harvey E. Yates as operator for any well drilled in the NE $\frac{1}{4}$  of Section 18, and do respectfully suggest this for your consideration.

Respectfully,

JENNINGS & CHRISTY
