Re: Case 7749  
T9S-R27E, Chaves County,  
New Mexico  
MOC Seymour State

Attention: Dick Stamets

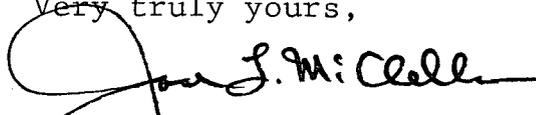

Dear Dick:

It has come to my attention through publication in the Roswell Daily Record that the above referenced Case concerning Jack Grynberg's application for force pooling on the NE $\frac{1}{4}$  of Section 18, Township 9 South, Range 27 East, is to be heard by the Commission on December 1, 1982.

McClellan Oil Corporation owns a .1125 working interest in the SE $\frac{1}{4}$ NE $\frac{1}{4}$  of the proposed proration unit for an Abo test. Messrs. James T. Jennings and Sim B. Christy IV each have a .00625 working interest.

This letter is to inform the Commission that Grynberg has not contacted any of the above working interest owners to determine if they are willing to join in the drilling of this test well. Therefore, we object to the Case being heard until such time as Grynberg has given us the opportunity to consider joining in the drilling of this well, including perusal of an AFE.

Very truly yours,

Jack L. McClellan  
President
