Re: Force Pooling Hearing
Section 28: S/2
T16S, R37E, NMPM,
Eddy County, New Mexico

Dear Mr. Stogner:

Per our telephone conversations and previous correspondence, we will not be in need of a hearing, at this time, regarding the force pooling of unleased mineral acreage in the above captioned land.

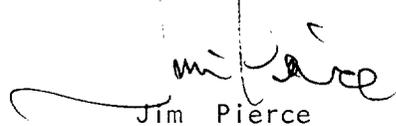

We were previously scheduled for March 16 and had requested, by facimile dated March 14, 1995, for the last hearing date in April.

Circumstances have caused us to put this prospect on hold for a short time.

I appreciate your help and consideration.

Please contact me if you have any questions.

Sincerely,

Jim Pierce

JLP/lm
