CASE 11232 Application of Nearburg Exploration Company for compulsory pooling, Eddy County, New Mexico. Applicant seeks an order pooling all mineral interests from the surface to the base of the Cisco-Canyon formation underlying the NE/4 of Section 24, T19S, R25E, NMPM, Eddy County, New Mexico, forming a standard 160-acre spacing and proration unit for any and all formations and/or pools developed on 160-acre spacing within said vertical extent, which presently includes but is not necessarily limited to the North Dagger Draw-Upper Pennsylvanian Pool. Said unit is to be dedicated to its Fairchild "24" Well No. 2 to be drilled and completed at a standard well location in Unit B of said Section 21. Also to be considered will be the costs of drilling and completing said well and the allocation of the costs thereof as well as actual operating costs and charges for supervision, designation of Nearburg Producing Company as the operator of the well and a charge for risk involved in drilling said well. Said unit is located approximately 4 miles northwest from Lakewood, New Mexico.

IN THE MATTER OF THE APPLICATION
OF NEARBURG EXPLORATION COMPANY
FOR COMPULSORY POOLING,
EDDY COUNTY, NEW MEXICO.

CASE NO. 11232

A P P L I C A T I O N

Comes now NEARBURG EXPLORATION COMPANY, by its attorneys, Kellahin & Kellahin, and in accordance with Section 70-2-17(c) (1978) applies to the New Mexico Oil Conservation Division for an order pooling all mineral interests from the surface to the base of the Cisco-Canyon formation underlying the NE/4 of Section 24, T19S, R25E, NMPM, Eddy County, New Mexico, forming a standard 160-acre spacing and proration unit for any and all formations and/or pools developed on 160-acre spacing within said vertical extent, which presently includes but is not necessarily limited to the North Dagger Draw-Upper Pennsylvanian Pool. Applicant proposes to dedicate this pooled unit to its Fairchild "24" Well No. 2 to be drilled and completed at a standard well location (Unit B) said Section 24. Also to be considered will be the costs of drilling and completing said well and the allocation of the costs thereof as well as actual operating costs and charges for supervision, designation of Nearburg Producing Company as the operator of the well and a charge for risk involved in drilling said well.

In support of its application, Nearburg Exploration Company, ("Nearburg") states:

1. Nearburg has a working interest ownership in the oil and gas minerals from the surface to the base of the Cisco-Canyon formation underlying the NE/4 of Section 24, T19S, R25E, NMPM, Eddy County, New Mexico.

2. The subject tract is located within one-mile of the current boundaries of the North Dagger Draw-Upper Pennsylvanian Pool, said pool being spaced on 160-acre oil spacing and proration units pursuant to Division Order R-4691-D issued effective April 1, 1991.

3. The subject well is to be drilled at a standard well location in Unit B of Section 24 to test any and all formations in the pooled interval from the surface to the base of the Cisco-Canyon formation.

4. Nearburg has the voluntary agreement of certain of the working interest ownership of the oil & gas minerals from the surface to the base of the Cisco-Canyon formation underlying the NE/4 of Section 24.

5. Nearburg has proposed the subject well and its spacing unit to the remaining working interest owners in this spacing unit as identified on Exhibit "A."

6. Despite its good faith efforts, Nearburg has been unable to obtain a written voluntary agreement from all of the parties listed on Exhibit "A."

7. Pursuant to Section 70-2-17(c) NMSA (1978) and in order to obtain its just and equitable share of potential production underlying this spacing unit, Nearburg needs an order of the Division pooling the identified and described mineral interests involved in order to protect correlative rights and prevent waste.

8. In accordance with the Division's notice requirements, a copy of this application has been sent to the parties whose interest is to be pooled as listed on Exhibit "A" notifying each of this case and of the applicant's request for a hearing of this matter before the Division on the next available Examiner's docket now scheduled for April 6, 1995.

WHEREFORE, Nearburg, as applicant, requests that this application be set for hearing on April 6, 1995 before the Division's duly appointed examiner, and that after notice and hearing as required by law, the Division enter its order pooling the mineral interest described in this spacing unit for the drilling of the subject well at a standard well location upon terms and conditions which include:

- (1) Nearburg Producing Company be named operator;
- (2) Provisions for applicant and all working interest owners to participate in the costs of drilling, completing, equipping and operating the well;
- (3) In the event a working interest owner fails to elect to participate, then provision be made to recover out of production, the costs of the drilling, completing, equipping and operating the well, including a risk factor penalty of 200%;
- (4) Provision for overhead rates per month drilling and per month operating and a provision providing for an adjustment method of the overhead rates as provided by COPAS;
- (5) Provisions pooling any non-participating royalty interests owners; and
- (6) For such other and further relief as may be proper.

RESPECTFULLY SUBMITTED:
