APPLICATION OF SANTA FE ENERGY
RESOURCES, INC. FOR COMPULSORY
POOLING, AN UNORTHODOX GAS WELL
LOCATION, AND DIRECTIONAL
DRILLING, LEA COUNTY, NEW MEXICO.

No. _____

APPLICATION

Santa Fe Energy Resources, Inc. hereby makes application for an order pooling all mineral interests from the surface to the base of the Morrow formation underlying Lots 1-4 and the E $\frac{1}{2}$ W $\frac{1}{2}$ (W $\frac{1}{2}$ equivalent) of Section 19, Township 20 South, Range 34 East, N.M.P.M., Lea County, New Mexico, and approving an unorthodox gas well location and directional drilling, and in support thereof states:

1. Applicant is an interest owner and has the right to drill a well in the W $\frac{1}{2}$ of said Section 19.
2. Applicant proposes to re-enter a well in the W $\frac{1}{2}$ of Section 19, located at an unorthodox surface location 660 feet from the South line and 2,084 feet from the West line of the Section. Pursuant to Division Rule 111, Applicant requests permission to directionally drill the well to an unorthodox bottom hole location within a 50' X 50' window centered 1,060 feet from the South line and 2084 feet from the West line of the Section. The well will be drilled to a depth sufficient to test the Morrow formation.
3. Applicant seeks to dedicate the following acreage to the well: (a) the W $\frac{1}{2}$ of Section 19 (comprising 320.28

acres) for all pools or formations spaced on 320 acres, including the undesignated Quail Ridge-Morrow Gas Pool; and (b) the SW¼ of Section 19 (comprising 160.19 acres) for all pools or formations spaced on 160 acres.

4. Applicant has in good faith sought to join all other mineral or leasehold interest owners in the W¼ of Section 19 for the purposes set forth herein.

5. Although Applicant attempted to obtain voluntary agreements from all mineral or leasehold interest owners to participate in the drilling of the well or to otherwise commit their interests to the well, certain interest owners have failed or refused to join in dedicating their acreage. Therefore, Applicant seeks an order pooling all mineral and leasehold interest owners underlying the W¼ of Section 19, as described above, pursuant to N.M. Stat. Ann. § 70-2-17 (1987 Repl.).

6. Applicant requests the Division to consider the cost of drilling and completing the well, the allocation of the cost thereof, as well as actual operating charges and costs charged for supervision. Applicant requests that it be designated as operator of the well and that the Division set a penalty of 200% for the risk involved in drilling the well.

7. The pooling of all interests underlying the W¼ of Section 19, as described above, the approval of the

unorthodox surface and bottomhole locations, and approval of directional drilling will prevent the drilling of unnecessary wells, prevent waste, and protect correlative rights.

WHEREFORE, Applicant requests that the Division grant the relief requested above.

If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Santa Fe Energy Resources desires to re-enter this well and alter our directional drilling to a bottomhole location listed above. We plan to kick-off @ 12,295', @ an azimuth of due north, build angle 1.5 degrees/100', to an angle of 25 degrees, and maintain the angle to a measured depth of 14,062'. Attached is a copy of our directional plan. We are on the docket seeking NMOCD approval for directional drilling a well at a non-standard bottomhole location in the W/2 of the proration unit shown on the C-102 attached.

Attached is a copy of an agreement whereby Santa Fe Energy purchased the Government "N" No. 2 from Richard C. Coe, this will allow us to move the tank battery to accommodate a drilling rig for the re-entry of the subject wellbore.

It has been our experience in the area that the 9-5/8" casing set at 5700' covers all H2S bearing formations, therefore we did not submit a H2S Drilling Plan.

Santa Fe Energy Resources, Inc. accepts all applicable terms, conditions, stipulations, and restrictions concerning operations conducted on the leased land or portion thereof, as described above in the heading and previously described in the APD submitted.
