Gentlemen:

We are requesting approval of non-standard location for the above mentioned well. Coastal management has an approved permit to drill in the Hobbs District Office but as a location given non. D & J Oil Co. has applied for a change of location so that approved intent which a copy of the form is enclosed.

The reason for this request is based on 2D seismic interpretation and we have a limited target area as the east side of location is bounded by a fault and there are structural variations on the west side of location.

Your prompt response to this request is greatly appreciated.

Yours very truly,

John H. Donaldson
