RE: San Juan 28-7 Unit
Application for Approval
Unit-wide Downhole Commingling
Mesaverde and Dakota Formations
Rio Arriba County, New Mexico

Dear Mr. Hoover:

The Farmington District Office (FDO) of the Bureau of Land Management (BLM) has received your letter dated June 22, 1995, for downhole commingling of the Blanco Mesaverde (MV) and Basin Dakota (DK) Formations in the above referenced unit.

In your application you have outlined allocation for the existing DK wells that will be completed in the MV formation and for the new MV-DK completions. In the existing wells, mid-year projections for DK production will be used to determine the allocated production for each formation. In the new wells, approximately three (3) months of production data from each producing zone will be used in establishing allocated production for each zone.

The methods you have proposed have been reviewed and approval of your application is hereby granted. A condition of this approval, is that an allocation formula is submitted for each well. When submitting individual well allocation factors, please reference this approval.

Under provisions of 43 CFR 3165.3, you may request an Administrative Review of the order(s) described above. Such request, including all supporting documents, must be filed in writing within 20 business days of receipt of this notice and must be filed with the State Director, Bureau of Land Management, P. O. Box 27115, Santa Fe, New Mexico 87502-0115. Such request shall not result in a suspension of the order(s) unless the reviewing official so determines. Procedures governing appeals from instructions, orders or decisions are contained in 43 CFR 3165.4 and 43 CFR 4.400 *et seq.*

We appreciate the opportunity to work with Conoco Inc. on a cooperative approach to solving a otherwise time consuming and complicated project. It is efforts such as these that will hopefully expedite future applications and projects.

If you have further questions regarding this matter, please contact Brian W. Davis at (505) 599-6367 or (505) 599-8900.

Sincerely,

Duane W. Spencer
Chief, Branch of Reservoir Management

Attn: Mr. Tom Scarbrough

Re: Application to Downhole Commingling
San Juan 28-7 Unit
Downhole Commingling of
Mesaverde and Dakota Production
Rio Arriba County, New Mexico

Dear Mr. Scarbrough:

This office is in receipt of your letter of June 28, 1995 wherein you have requested our approval to downhole commingle, after an appropriate test period to determine allocations, the Mesaverde and Dakota production in the San Juan 28-7 Unit.

It is our understanding that the condensate gravities and BTU values are similar for both pools and that there will be no revenue or royalty loss due to commingling.

Since it appears that there will be no loss of revenue to the State of New Mexico as a result of your proposed operation, the above-mentioned request is hereby approved. Any deviation from the substance of your request will be sufficient grounds for rescinding our approval. Our approval is subject to like approval by the New Mexico Oil Conservation Division and the Bureau of Land Management.

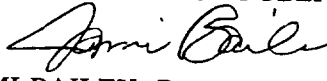

Your filing fee in the amount of thirty (\$30.00) dollars has been received.

After the appropriate test period, please provide this office with the allocation data for the State's wells.

If you have any questions, or if we may be of further help, please contact Pete Martinez at (505) 827-5791.

Very truly yours,

RAY POWELL, M.S., D.V.M.

CASE NO.: 11349
Submitted by: Conoco Inc.
Hearing Date: July 27, 1995

STATE OF NEW MEXICO
ENERGY, MINERALS AND NATURAL RESOURCES DEPARTMENT
OIL CONSERVATION DIVISION

APPLICATION OF CONOCO INC.
FOR DOWNHOLE COMMINGLING
RIO ARriba COUNTY, NEW MEXICO.

CASE:

SUMMARY OF APPLICATION

(1) Conoco Inc. is the operator of the San Juan 28-7 Unit which currently contains approximately 110 Mesaverde wells (See Exhibit "A") and approximately 127 Basin Dakota Gas Pool wells (See Exhibit "B") all located within an area consisting of the following described acreage:

TOWNSHIP 28 NORTH, RANGE 7 WEST, NMPM
Sections 7-36: All

TOWNSHIP 27 NORTH, RANGE 7 WEST, NMPM
Sections 1-12: all
Section 15: W/2
Sections 16-21: All
Section 22: W/2
Section 27: NW/4
Section 28: N/2
Sections 29-30: All

(2) In the absence of special circumstances, Division general state-wide Rule 303(C) requires that administrative applications for downhole commingling of gas production be submitted, processed and approved on a well by well basis.

(3) Sufficient data is now available from existing wells in the San Juan 28-7 Unit to support the Division approving on an "area-wide" basis the downhole commingling of Dakota and Mesaverde gas production within the Unit, including the approval of 17 new wells to be drilled as downhole commingled Dakota-Mesaverde wells and the approval to convert 14 existing Dakota wells by downhole commingling Dakota and Mesaverde production within those wellbores.

(4) In order to recover significant additional remaining Dakota and Mesaverde production from the Unit, Conoco Inc. intends to undertake an "infill" program which is more effectively and efficiently accomplished by downhole commingling all Dakota and Mesaverde production from any existing wells and any new wells.

(5) Conoco has proposed and staked the location of seventeen (17) new wells which it desires to drill initially as downhole commingled Mesaverde-Dakota wells. Conoco also seeks approval of unorthodox well locations for the San Juan 28-7 Unit Well No. 125 and Well No. 157 which are required because of topographical restrictions. Also, Conoco has initially identified fourteen (14) existing Dakota wells in the Unit which it desires to recomplete as downhole commingled production by adding the Mesaverde formation to those wellbores.

(6) Finally, there exists the potential within the San Juan 28-7 Unit for an additional thirty (38) new wells which can be initially drilled as downhole commingled Mesaverde and Dakota wells.

(7) Production from the Dakota pool is now either marginal or uneconomic from many existing wells within the Unit and the economic life of that production is extended if it is downhole commingled by adding the Mesaverde in those wellbores. The approval of downhole commingling of these formations in the Unit will extend the economic life of the existing wells and thereby increase ultimate recovery from these formations.

(8) Conoco Inc. requests the adoption of a summary administrative procedure, without further notice and hearing, with the necessary exceptions to Division Rule 303(C) so that the Supervisor of the Aztec District Office of the Division shall approve the downhole commingling of said production on an area-wide basis for the Unit.

(9) Because the Participating Areas for the Mesaverde formation and for the Dakota formation are different, the ownership is not common among these two formations within the San Juan 28-7 Unit.

(10) Conoco also seeks an exception from Rule 303-C-(1)(b)(ii) and (vi) to allow for crossflow and a bottomhole pressure differential of more than 50 percent.

(11) Conoco Inc. will submit at the hearing, its proposed formula for the allocation of production to each of the commingled zones and/or a description of the factors or data to be used by the OCD-Aztec in determining such a formula.

WAIVERS TO OBJECTION

FOR

CASE NO: 11349

BEFORE AN EXAMINER OF THE
OIL CONSERVATION DIVISION

EXHIBIT NO. **8**
CASE NO.: 11349
Submitted by: Conoco Inc.
Hearing Date: July 27, 1995

Midland Division
Exploration Production

Conoco Inc.
10 Desta Drive, Suite 100W
Midland, TX 79705-4500
(915) 686-5400

Application to the New Mexico Oil Conservation Division for approval to initially downhole commingle Basin Dakota and Blanco Mesaverde production in twelve (12) new infill producing wells to be drilled and equipped as single completions in the San Juan 28-7 Unit. Approval of this application will result in the recovery of additional reserves from both pools that cannot be economically developed either in separate single completion nor in dual completion wellbores, thereby preventing waste and protecting the correlative rights of the interest owners in this unit.

WAIVER TO OBJECTION

We, the undersigned, as a working interest owner in the San Juan 28-7 Unit, hereby support the Unit Operator, Conoco Inc., and waive any objection to its plan to downhole commingle production from the Basin Dakota and Blanco Mesaverde pools in the above mentioned twelve (12) drilling wells as identified on the 1995 Plan of Development for the San Juan 28-7 Unit.

Approval of this application will result in the recovery of additional reserves from both pools that cannot be economically developed either in separate single completion nor in dual completion wellbores, thereby preventing waste and protecting the correlative rights of the interest owners in this unit.

WAIVER TO OBJECTION

We, the undersigned, as a working interest owner in the San Juan 28-7 Unit, hereby support the Unit Operator, Conoco Inc., and waive any objection to its plan to downhole commingle production from the Basin Dakota and Blanco Mesaverde pools in the above mentioned twelve (12) drilling wells as identified on the 1995 Plan of Development for the San Juan 28-7 Unit.
