Re: Application of Arch Petroleum Inc. for Administrative Approval of an Unorthodox Gas Well Location for its C. E. Lamunyon No. 56 Well located 1300 feet from the North line and 1450 feet from the East line of Section 28, Township 23 South, Range 37 East, N.M.P.M., Lea County, New Mexico

Gentlemen:

Arch Petroleum Inc. hereby requests administrative approval of an unorthodox gas well location for its C. E. Lamunyon No. 56 Well in the Teague-Blinbry Pool at a point 1300 feet from the North line and 1450 feet from the East line of Section 28, Township 23 South, Range 37 East, N.M.P.M., Lea County, New Mexico. The NW/4 NE/4 of Section 28 is to be dedicated to the well.

An unorthodox location for this well was previously approved by Division Order No. R-10453 at 1300 feet from the North and East lines of said Section 28. However, this location must be moved to avoid a Sid Richardson Pipeline which is located immediately southwest of the original well location.

William J. LeMay, Director
Michael E. Stogner, Chief Engineer

Page 2

Arch Petroleum Inc. operates all offsetting tracts affected by this unorthodox location. Attached hereto as Exhibit A is a copy of OCD Form C-102 which shows the survey location for this well and the Sid Richardson Pipeline in question.

Your consideration of this administrative application is appreciated.

Very truly yours,

A handwritten signature in black ink, appearing to read "William F. Carr". The signature is fluid and cursive, with a long, sweeping tail that extends to the right.

we had to move this well 150' to the west (1450' FEL). There's a Sid Richardson Gas Pipeline that will be just off the SE corner of the proposed drilling pad. There is also a Tank Battery just north of this well so we couldn't move it any north.
