STATEMENT OF CASE

APPLICANT

Applicant seeks certification, effective January 1, 1996, of a positive production response for its West Lovington Strawn Unit pressure maintenance project. Gas injection into the unitized formation has prevented gas from breaking out of solution and thus has preserved reservoir energy, allowing production to be substantially increased.

OPPOSITION

You can give this
guy some good-natured
shit. He's a friend of
mine from when I
lived in Oklahoma City.
