Re: **Well Proposal**
S/2 Section 33,
Township 17 South, Range 30 East
Eddy County, New Mexico

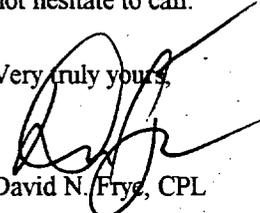

Dear Paul:

Logro Corporation hereby respectfully requests the participation of Phillips Petroleum Company ("Phillips") in the drilling of a 11,700' Morrow test to be located 2,100' FWL & 1,650' FSL of the captioned Section 33. The well is expected to cost \$981,850.00 as detailed on the attached AFE. In the alternative, Logro Corporation would entertain a farmout of Phillip's interest under the following general terms:

1. Within 180 days of formal contract, Logro will drill or cause to be drilled an 11,700' Morrow test at a lawful location upon the captioned lands.
2. Upon successful completion of the test, Logro will earn an assignment of 100% of Phillip's interest in the spacing unit for the well from the base of the deepest currently producing zone to the base of the Morrow formation.
3. Logro will have the option to continuously develop the farmout acreage under a 180 day development program.
4. Phillips will retain an overriding royalty equal to the difference between 25% and existing lease burdens with the option to convert said override to a 25% working interest after payout or to increase said override by an additional 5% after payout.
5. All interests are subject to proportionate reduction.
6. The only penalty for failure of Logro to timely commence the above described test shall be the forfeiture of the right to earn any acreage hereunder.

We look toward to your prompt and favorable consideration of this proposal. If you have any questions, please do not hesitate to call.

Very truly yours,

Dear Paul:

Logro Corporation and Naumann Oil & Gas, Inc. each agree the captioned pooling case is intended to pool only those formations under the captioned lands which are customarily spaced on 320 acre spacing. It is not our intent to pool any formations into units of less than 320 acres. Further, we agree to testify to that effect at the hearing if it is held. Please call if you require anything further.
