CASE FILE
11625*

**Re: NMOCD Case 11625
San Juan 29-7 Unit
Mesaverde Infill Drilling Project
Burlington Resources Oil & Gas Company**

Dear Mr. Catanach:

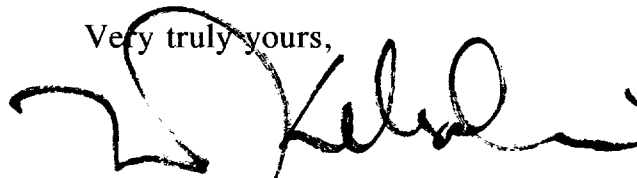

At the Examiner Hearing held on October 17, 1996, I presented the referenced case to you which included eight (8) wells to be located at unorthodox well locations with Wells 37C and 47B to be relocated to be outside the one-half mile buffer" and with Wells 85C, 85B, 57B and 64B to be drilled directionally because of topography.

On December 11, 1996, you requested that I ask Burlington to reconfirm these locations because of your concern that Exhibit 4's tabulation of well locations if approved would cause the 37C and 47B wells to be located in the buffer.

In response to your request, yesterday, Burlington provided me with copies of the C-102 forms for each well which shows that Exhibit 4's tabulation is wrong and needs to be corrected. I have enclosed copies of each C-102 so that you would have the correct surface and bottom hole location for each well.

We appreciate you bringing this matter to our attention and providing us an opportunity to submit this data without reopening the case. Please call me if you need anything further.

Very truly yours,

W. Thomas Kellahin

cfx: Burlington Resources Oil & Gas Company
Linda Donohue
