

BEFORE THE  
OIL CONSERVATION DIVISION  
NEW MEXICO DEPARTMENT OF ENERGY, MINERALS AND NATURAL RESOURCES

IN THE MATTER OF THE APPLICATION  
OF ENRON OIL & GAS COMPANY  
FOR AMENDMENT OF DIVISION ORDER  
NO. R-10658, LEA COUNTY, NEW MEXICO.

CASE NO. 11711

**APPLICATION**

ENRON OIL & GAS COMPANY, ("Enron"), through its undersigned attorneys, hereby makes application for amendment of Division Order No. R-10658 to authorize the drilling of its proposed Bell Lake Unit Well No. 1 at a location 1980 feet from the South and East lines of Section 7, Township 24 South, Range 34 East, and dedicate thereto all previously compulsory pooled standard 320-acre spacing and proration units comprised of the E/2 of said Section 7, and in support thereof states:

1. Enron is a working interest owner in the E/2 of Section 7, and has the right to drill thereon.

2. By Order No. R-10575 issued in Case No. 11494 on April 1, 1996, the Division upon the application of Enron pooled all mineral interests from the surface to the base of the Morrow formation underlying the E/2 of Section 7, Township 24 South, Range 34 East, NMPM, Lea County, New Mexico. Said unit was to be dedicated to the Enron Bell Lake Unit Well No. 1 to be drilled at a standard location 2200 feet from the North line and 1980 feet from the East line (Unit G) of Section 7 to a depth sufficient to test any and all

formation; from the surface to the base of the Morrow formation, South Bell Lake-Morrow Gas Pool.

3. Enron did not drill this well as required by Order No. R-10575 on or before July 1, 1996 and this Order expired by its own terms.

4. Enron reapplied to the Division for a Compulsory Order for this well and by Order No. R-10658 issued in Case 11598 on August 27, 1996, the E/2 of said Section 7 was again compulsory pooled for the proposed Bell Lake Unit Well No. 1 at a location 2200 feet from the North line and 1980 feet from the East line of said Section 7.

5. Order No. R-10658 has been extended by the Division Director until March 1, 1997 for the commencement of the drilling of a well on the pooled spacing unit.

6. Recently acquired data on the Morrow formation in this area dictates that the proposed well location be changed to a point 1980 feet from the South and East lines of said Section 7.

7. Amendment of Order No. R-10658 to provide for a well 1980 feet from the South and East lines of said will be in the best interest of conservation, will prevent waste and will protect correlative rights.

WHEREFORE, Enron Oil & Gas Company prays that this application be set for hearing before an Examiner of the Oil Conservation Division on January 23, 1997 and, after notice and hearing as required by law, the Division approve this application for amendment of Order No. R-10658.

Respectfully submitted,

CAMPBELL, CARR, BERGE  
& SHERIDAN, P.A.
