Re: *Case 11979: Application of Texaco Exploration and Production Inc. for a non-standard gas spacing and proration unit, or in the alternative, for compulsory pooling, Lea County, New Mexico*

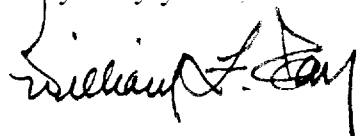

Dear Mr. Catanach:

The application in the above referenced case was originally filed by Texaco Exploration and Production Inc. seeking administrative approval of a non-standard spacing and proration unit for its E. H. B. Phillips "C" Well No. 2. On May 1, 1998 the Division advised that this application would not qualify for administrative approval and that a hearing would be required.

Texaco wrote the Division on May 6, 1998 and advised that it was currently reevaluating this acreage and its plans for future development and requested that the application not be set for hearing. Accordingly, Texaco requests that this application be dismissed when it is called at the May 28, 1998 Examiner Hearing.

Your attention to this request is appreciated.

Very truly yours,

WILLIAM F. CARR
Attorney for Texaco Exploration and Production Inc.
