***Re: Application of EOG Resources, Inc. for approval of a pilot waterflood project in the North Red Hills Unit, Lea County, New Mexico.***

Gentlemen:

Enclosed is a copy of the application of EOG Resources, Inc. for a pilot waterflood project in its proposed North Red Hills Unit Area with attached Oil Conservation Division Form C-108. This pilot project will be located in the N/2 of Section 13 and the S/2 of Section 12, Township 25 South, Range 33 East, NMPM, Lea County, New Mexico. Water will be injected into the unitized interval of the Bone Spring formation, Red Hills-Bone spring pool at a proposed maximum injection surface pressure of 3700 psi.

This application has been set for hearing before a Division Examiner on May 4, 2000. You are not required to attend this hearing, but as an owner of the surface of the land upon which the injection well will be located, you may appear and present testimony. Failure to appear at that time and become a party of record will preclude you from challenging the matter at a later date.

Parties appearing in cases have been requested by the Division (Memorandum 2-90) to file a Prehearing Statement substantially in the form prescribed by the Division. Prehearing statements should be filed by 4:00 o'clock p.m. on the Friday before a scheduled hearing.

Very truly yours,

*William F. Carr*
