

Lyn, Find enclosed all of the correspondence that was sent to Texas West Oil and Gas, The well is all ready plugged and abandoned, so plugging procedure is not enclosed. I have asked dirt contractors to give me bid to close the reserve pit that is open on this location. Dorothy told me that the bond is still valid. I tried to make contact with the bonding company, but was unsuccessful. If you have any questions give me a call. Thanks  
Billy Prichard

Re: State 27 #1-P  
 Sec. 27, T15S, R37E

Dear Mr. Donavon:

On April 15, 1986, you were called concerning the need to complete the cleanup of the above location. At that time you advised us you would get on the cleanup and call us when it was ready. As of this date we have heard nothing from you.

Another inspection of this location was made September 18, 1986, and we found no further cleanup had been done. The rancher would like to have the location cleaned and we would like to be able to release it so we will not have to spend further time checking on it.

Please complete the following cleanup and when this has been finished, please sign and return a copy of this letter in order that we may re-inspect the location.

- 1) Fill rat hole
- 2) Cut and break out pit

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton  
 Supervisor, District I

ed

The above has been corrected and the location is ready to be rechecked.

Gentlemen:

Form C-103, Report of Plugging, for your State 27 No. 1-P 27-15-37

LEASE

WELL NO. UNIT S-T-R

cannot be approved until a Division representative has made an inspection of the location and found it to be cleared to comply with Division Rules and Regulations. Please check each item in the space provided to indicate that the work has been done.

- ( ) 1. All pits have been filled and levelled.
- ( ) 2. Rat hole and cellar have been filled and levelled.
- ( ) 3. A steel marker 4" in diameter and approximately 4" above mean ground level has been set in concrete. It must show the quarter-quarter section or unit designation, section, township, and range numbers which have been permanently stenciled or welded on the marker.
- ( ) 4. The location has been levelled as nearly as possible to original top ground contour and has been cleared of all junk and equipment.
- ( ) 5. The dead men and tie downs have been cut and removed.
- ( ) 6. If a one well lease or last remaining well on lease, the battery and burn-pit locations have been levelled and cleared of all junk and equipment.

The above are minimum requirements and no plugging bond will be released until all locations for plugged and abandoned wells have been inspected and Forms C-103 approved. When all of the work outlined above has been done, please notify this office by filling in the blank form below and returning this letter to us so that our representative will not have to make more than one trip to the location.

Re: State 27 Well #1-P  
Section 27, T15S, R37E

Gentlemen:

We have been contacted again by the landowner, Mr. Gordon Dickinson, concerning the cleanup of the above-referenced plugged well location.

I believe we called you in April 1986 and wrote to you in September 1986 concerning this location and requested that you fill the rat hole and cut and level the pits so the location could be released.

We would like to get this location released, so please take care of this immediately and call Eddie Seay or myself in order that we may recheck it.

Very truly yours,

OIL CONSERVATION DIVISION
