

San Juan 28-7 Dakota Pilot Expansion

- Criteria for Selecting Locations

- 1) Reservoir dictates - area contains moderate GIP reserves
- 2) Surface - area where most locations are accessible and “fit” intended 80 ac pattern
- 3) MV potential - each well to be DHC w/MV
- 4) Area where some data already exists (#225E)
- 5) PA - area within MV and DK PA's
