Dear Mr. Cone:

Please find enclosed for your review and execution an Oil and Gas Lease covering the captioned lands. Trilogy Operating, Inc. has tentative plans to drill on the subject lands in the next 30 days.

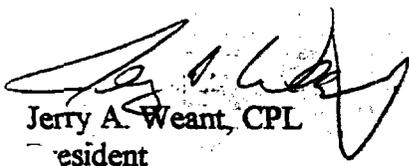

Trilogy is prepared to pay you \$50.00 per net acre for a 6 month lease and a 1/4th royalty. Mr. James Shaw attempted to lease this interest on our behalf in 1997. As an alternative, I have enclosed a copy of our proposed AFE for drilling a well on said lands. The State of New Mexico provides that mineral owners have the following 3 options for developing their minerals:

1. Lease Minerals
2. Participate in the development of the minerals with your interest.
3. Have your minerals subjected to Compulsory Pooling which provides for a 1/8th royalty until a penalty is recouped against said interest. The maximum penalty is cost plus 200%.

As stated above, we are prepared to offer you a short term lease and 1/4th royalty; however, time is of the essence for you to respond to our offer. We are contacting our attorney to commence Compulsory Pooling, because there are some mineral owners who cannot be found. Please give this letter careful consideration and call me if you have questions. I have also included language from our additional provisions of our Operating Agreement. We use a 1982 Model Form Operating Agreement with only slight modifications.

If the lease is acceptable, please execute it before a Notary Public and return it to our office promptly. Upon receipt of same, we will route a check for \$133.50 for your 2.67 net acres. If you decide to join, please return the executed AFE. Thereafter, we will furnish you an Operating Agreement for execution. Thank you for your prompt attention to this matter.

Yours very truly,

  
Jerry A. Weant, CPL

Dear Mr. Bales:

Please find enclosed for your review and execution an Oil and Gas Lease covering the captioned lands. Trilogy Operating, Inc. has tentative plans to drill on the subject lands in the next 45 days.

Trilogy is prepared to pay you \$50.00 per net acre for a 6 month lease and a 3/16th royalty. We have sent several letters requesting a new lease since our previous lease expired. As an alternative, I have enclosed a copy of our proposed AFE for drilling a well on said lands. The State of New Mexico provides that mineral owners have the following 3 options for developing their minerals:

1. Lease Minerals

Dear Mr. Long:

I have attempted to contact you twice by phone since we agreed to the lease terms. I have yet to receive your reply.

Therefore, please find enclosed for your review an AFE for the captioned well. The well will be drilled to a depth sufficient to test the Abo formation at approximately 8,000 feet. If you elect not to lease, you have the option to participate. We are currently proceeding with a Compulsory Pooling Hearing as I discussed in our original conversation. Whichever alternative you choose, please let me know immediately, and I can have your interest removed from the hearing.
