Ms. Gilmer:

Please find enclosed for your review and execution two (2) copies of our AFE proposing to drill the captioned well. This well is being proposed as a subsequent well in the SW/4 of Section 24, T-19-S, R-38-E, Lea County, New Mexico.

Trilogy Operating, Inc. proposes to drill this well to a depth of 7800 feet or a depth, in our opinion, sufficient to test the Abo formation, whichever is the lesser. Should you elect to participate in this well, please return one (1) executed copy of the AFE to us. Thereafter, we will forward the Operating Agreement currently under use for these lands. We intend to spud this well during the first quarter of 2002.

As an alternative, we propose to lease your mineral interest for \$50.00 per net mineral acre, one (1) year primary term and 3/16ths royalty on the lease form attached. In the event you elect not to participate or accept our lease offer, we will seek a Compulsory Pooling Order on your interest as was done in our Ruby #1 well. Should you have any questions, please contact us.

Yours very truly,

President
