OIL & GAS LEASE

THIS AGREEMENT made this August 25, 1997, but effective December 7, 1997, between Madeline Stokes, drilling in her sole and separate property, whose address is P.O. Box 1115, Ozona, Texas 76943, herein called lessor (whether one or more) and lessee AMERISTATE OIL & GAS, INC., 1211 West TEXAS STREET, MIDLAND, TEXAS 79701.

1. Lessor, in consideration of TEN AND 00/100ths DOLLARS cash in hand paid, receipt and sufficient, of which is hereby acknowledged, and of the royalties herein provided and of the agreement of the lesser herein contained, herein grants, leases and lets exclusively unto lessee for the purpose of investigating, exploring, prospecting, drilling, and operating for and producing oil and gas, including gas, water, other fluids, and/or subsurface areas, living pipe lines, storage oil, building tanks, roads, etc., telephone lines, and other structures and things thereunto produced, save, take care of, treat, process, store and transport and remove, the following described land in Lee County, New Mexico, to-wit:

Township 16 South, Range 35 East, N.M.P.M.

Section 13: SE 1/4

Section 23: SE 1/4

Section 24: NW 1/4 SW 1/4 NW 1/4 NE 1/4

Section 25: NW 1/4

Section 26: NE 1/4

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF.

Said land is estimated to comprise 720.00 acres, whether it actually comprises more or less.

2. Subject to the other provisions herein contained, this lease shall remain in force for a term of three (3) years from December 7, 1997 (called "primary term"), and as long thereafter as oil or gas is produced from said land or from land with which said land is pooled.

3. The royalties to be paid by lessee are: (a) on oil, and other liquid hydrocarbons saved at the well, 3/16 of the produced and saved from said land, same to be delivered at the wells or to the credit of lessor in the pipeline to which the wells may be connected, (b) on gas, including cushioned gas or other gaseous substance produced from said land and used off the premises or used in the manufacture of gasoline or other products, the mark of value at the well of 3/16 of the gas used, provided that no gas sold on or off the premises, the royalties due to 3/16 of the excess reduced from each sale; (c) and at any time when this lease is not validated by other provisions hereof and there is a gas and/or condensate well on said land, or land pooled therewith, but gas is not being so sold or used and such well is shut-in, either before or after production thereof, then on or before 180 days after such well is shut-in, and thereafter at annual intervals, lessor may pay or tender an advance shut-in royalty equal to \$1.00 per acre of lessor's gas acreage then held under this lease by the party making such payment or lessee, and so long as and that no royalty is paid or tendered, this lease shall not terminate and it shall be considered under all clauses hereof that gas is being produced from the leased premises in paying quantities. Each such payment shall be paid or tendered to the party or parties who at the time of such payment would be entitled to receive the royalties which would be paid under this lease if the well were in fact producing. The payment or series of royalties and shut-in royalties may be made by check or draft. Any timely payment or tender of shut-in royalty which is made in a bona fide attempt to make proper payment, but which is erroneous in whole or in part as to parties or amounts, shall nevertheless be sufficient to prevent termination of this lease in the same manner as though a proper payment had been made if lessor shall correct such error within 40 days after lessor has received written notice thereof by certified mail from the party or parties entitled to receive payment together with such written instruments (or certified copies thereof) as are necessary to enable lessor to make proper payment. The amount realized from the sale of gas on or off the premises shall be the price established by the gas sales contract entered into in good faith by lessor and gas purchaser for such term and under such conditions as are customary in the industry. "Price" shall mean the net amount received by lessor after giving effect to applicable regulatory orders and after application of any applicable price adjustments specified in such contract or regulatory orders.

4. This is a paid-up lease and lessee shall not be obligated during the primary term hereof to commence or continue any operations of whatsoever character or to make any payments hereunder in order to maintain, or to lease in force during the primary term, however, this provision is not intended to relieve lessor of the obligation to pay royalties on actual production pursuant to the provisions of Paragraph 3 hereof.

5. Lessor has hereby granted the right and power, from time to time, to pool or combine this lease, the land covered by it or any part or portion thereof with any other land, leases, general statute or parts thereof for the production of oil or gas. Lessor's pooled hereunder shall not exceed the standard production unit fixed by law or by the Oil Conservation Division of the Energy and Minerals Department of the State of New Mexico or by any other lawful authority for the pool or area in which said land is situated, plus a tolerance of ten percent. Lessor shall file written unit designations in the county in which the premises are located and such units may be designated from time to time and either before or after the completion of wells. Drilling operations on or production from any part of any such unit shall be considered for all purposes, except the payment of royalty, as operations conducted upon or production from the land covered in the lease. There shall be allocated to the land covered by this lease included in any such unit that portion of the total production of pooled minerals from wells in the unit, after deducting any used in lease or unit operations, which the net oil or gas acreage in the land covered by this lease included in the unit bears to the total number of surface acres in the unit. The production on all wells shall be considered for all purposes, including the payment or delivery of royalty, as the entire production of pooled minerals from the portion of said land covered herein and included in said unit in the same manner as though produced from said land under the terms of this lease. Any pooled unit designated by lessor, as provided herein, may be designated by reason of recording an appropriate instrument in the county where the land is situated at any time after the completion of a dry hole or the cessation of production on said unit.

6. If, at the expiration of the primary term, there is no oil or gas upon said land capable of producing oil or gas, but lessor has commenced operations for drilling or reworking thereof, this lease shall remain in force so long as operations are prosecuted with no cessation of more than 180 consecutive days, whether such operations be on the same well or on a different or additional well or wells, and if they result in the production of oil or gas, so long thereafter as oil or gas is produced from said land. If, after the expiration of the primary term, all wells upon said land should become incapable of producing, for any cause, this lease shall not terminate if lessor commences operations for additional drilling or for reworking within 180 days thereafter. If any drilling, additional drilling, or reworking, operations hereunder result in production, then this lease shall remain in full force so long thereafter as oil or gas is produced hereunder.

7. Lessor shall have the use of oil, gas and water from said land, except water from lessor's wells and tanks, for all operations hereunder, and the royalty shall be computed after deducting any oil used. Lessor shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed by lessor on said land, including the right to draw and remove all casing. When required by lessor, lessee will bury all pipe lines on cultivated lands below ordinary plow depth, and no well shall be drilled within two hundred feet (200 ft.) of any residence or barn now on said land without lessor's consent. Lessor shall have the privilege, at his risk and expense, of using gas from any gas well on said land for caves and smoke lights at the principal dwelling thereon, out of any surplus gas not needed for operations hereunder.

8. The rights of other party hereunder may be acquired as whole or in part and the properties herein shall extend to their heirs, executors, administrators, . . . , sons and daughters, but no change in the ownership of the land or in the ownership of, or rights to receive, royalties or that on royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of lessor, and no such change or division shall be binding upon lessor for any purpose until 90 days after lessor has been furnished by certified mail at lessor's principal place of business with acceptable instruments or certified copies thereof certifying the date of title to the original lessor. If any such change or ownership occurs through the death of the owner, lessor may, at its option, pay or tender any royalties or shut-in royalties in the name of the decedent or to his estate or to his heirs, executors or administrators until such time as lessor has been furnished with evidence satisfactory to lessor as to the persons entitled to such sum. As an interest of this lease or whole or a part shall, to the extent of such assignment, release and discharge lessee of any obligations hereunder and, if lessor or assignee of part or parts hereof shall fail or make default in the payment of the proportionate part of royalty or shut-in royalty due from such lessor or assignee or fail to comply with any of the provisions of this lease, such default shall not affect this lease so far as it covers a part of said lands upon which lessor or any assignee thereof shall properly attempt to make such payments.

9. Should lessor be prevented from complying with any express or implied covenants of this lease, or from conducting drilling or reworking operations hereunder, or from producing oil or gas hereunder by reason of scarcity or inability to obtain or use equipment or material, or by operation of force majeure, or by any federal or state law or any order, rule or regulation of governmental authority, then while so prevented, lessor's duty shall be suspended, and lessor shall not be liable for failure to comply therewith, and this lease shall be extended while and so long as lessor is prevented by any such cause from conducting drilling or reworking operations or from producing oil or gas hereunder, and the time while lessor is so prevented shall not be counted against lessor, anything in this lease to the contrary notwithstanding.

10. Lessor hereby warrants and agrees to defend the title to said land and agrees that lessor at its option may discharge any tax, mortgage or other lien upon said land, and in the event lessor does so it shall be obligated to such lessor with the right to enforce same and to apply royalties and due-in royalties payable hereunder toward satisfying same. Without impairment of lessor's rights under the warranty, if this lease covers a less interest in the oil or gas in all or any part of said land than the interest and undivided fee simple estate (whether lessor's interest is herein specified or not) then the royalties, due-in royalty, and other payments, if any, accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease, bears to the whole and undivided fee simple estate therein. Should any one or more of the parties named above as lessors fail to prosecute this lease, it shall nevertheless be binding upon the party or parties committing the same.

11. Lessor, his or her assignees, heirs and assigns, shall have the right at any time to surrender this lease, as whole or in part, to lessor or his heirs, successors, and assigns by delivering or mailing a written instrument to the lessor, or by placing a written instrument of record in the county in which said land is situated, therewith lessor shall be relieved from all obligations, expressed or implied, of this agreement as to acreage so surrendered, and thereafter the due-in royalties payable hereunder shall be reduced in the proportion that the acreage covered hereby is reduced by said release or releases.

EXHIBIT "A"

Attached to and made a part of that certain oil and gas lease dated August 25, 1997, but effective December 7, 1997, by and between Madeline Stokes, lessor, and Ameristate Oil & Gas, Inc., lessee

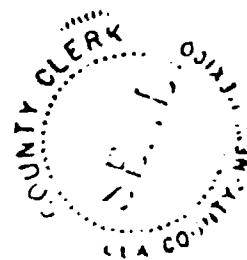

12. Notwithstanding anything contained hereinabove to the contrary, it is understood and agreed that at the expiration of the primary term, this lease shall terminate as to all lands covered hereby not included in or otherwise allocated to a "well unit" as hereinafter defined, unless lessee is producing oil, gas or other hydrocarbons from any well on the leased premises, or lands pooled therewith, or is drilling upon said lands across the expiration of the primary term as provided for in the body of this lease, and does not allow more than 180 days to elapse between the completion or abandonment of one well on such land and the commencement of another well thereon until the leased premises have been "fully developed," as hereinafter defined. Operations for drilling of the first such development well must be commenced (a) within 180 days after the expiration of the primary term if production is established under this lease prior to the expiration of the primary term, or (b) within 180 days of completion of the well which is being drilled, tested or completed across the expiration of the primary term. Should lessee fail to timely commence a well in accordance with aforesaid 180 days continuous drilling or development prior to the point in time the leased premises have fully developed then this lease shall terminate as to all lands not included in or otherwise allocated to a well unit. For the purpose hereof, the term "well unit" shall mean the proration or spacing unit created for a well capable of producing oil and/or gas or other hydrocarbons in paying quantities as in accordance with the applicable rules and regulations of the New Mexico Oil Conservation Division or other governmental authority having jurisdiction, and the term "fully developed" shall mean the point in time when the entirety of the leased premises has been included in a well unit or units as defined. The date of completion of a well shall be the date of a potential test if a producing well and the date of plugging if a dry hole or abandoned well. At the end of the continuous drilling program, if any, this lease will automatically terminate as to all lands covered hereby which have not been so fully developed and as to lands so fully developed shall terminate as to all depths lying more than 100' below the total depth drilled.

13. Payment of shut-in gas well royalties will not be permitted to maintain this lease in force for any period longer than two consecutive years, without the written consent of lessor

OIL & GAS LEASE

THIS AGREEMENT made this August 25, 1997, but effective December 7, 1997, between Erma Stokes Hamilton, dealing in her sole and separate property, whose address is P.O. Box 1470, Big Spring, Texas 79721, herein called lessor (whether one or more and lesser AMERISTATE OIL & GAS, INC., 1211 WEST TEXAS STREET, MIDLAND, TEXAS 79701.

1. Lessor, in consideration of TEN AND 00/100ths DOLLARS cash on hand paid, receipt and sufficiency of which is hereby acknowledged, and of the royalties herein provided and of the agreement of the lessee herein contained, hereby grants, leases and lets exclusively unto lessee for the purpose of investigating, exploring, prospecting, drilling, and operating for and producing oil and gas, including gas, water, other fluids, and air into subsurface strata, laying pipe therefor, storing oil, building tanks, roads, telephone lines, and other structures and things thereon to produce, save, take care of, treat, process, store and transport said minerals the following described land in Ector County, New Mexico, to wit:

Tombstone 16 South, Range 35 East, NMPM

Section 13: SE%

Section 23: SE%

Section 24: NW 1/4 SW 1/4, NW 1/4 NE 1/4

Section 25: NW 1/4

Section 26: NE 1/4

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF.

Said land is estimated to comprise 720.00 acres, whether it actually comprises more or less.

2. Subject to the other provisions herein contained, this lease shall remain in force for a term of three (3) years from December 7, 1997, (called "primary term"), and as long thereafter as oil or gas is produced from said land or from land with which said land is pooled.

3. The royalties to be paid by lessee are: (a) on oil, and other liquid hydrocarbons saved at the well, 3/16 of that produced and saved from said land, same to be delivered at the wells or to the credit of lessor in the pipelines to which the wells may be connected; (b) on gas, excluding condensate gas or other gaseous substance produced from said land and sold off the premises or used in the manufacture of gasoline or other products, the market value of 3/16 of the gas sold, provided that no gas sold on or off the premises, the royalties shall be 3/16 of the amount realized thereon such sale; (c) at any time when this lease is not validated by either previous or hereafter there is a gas and/or condensate well on said land, or land pooled therewith, but gas or condensate is not being so sold or used and such well is shut-in, either before or after production therefrom, then on or before 180 days after said well is shut-in, and thereafter at annual intervals, lessor may pay or tender an advance shut-in royalty equal to \$1.00 per acre of lessor's gas coverage then held under this lease by the party making such payment or tender, and so long as said shut-in royalty is paid or tendered, this lease shall not terminate and it shall be considered under all clauses hereof that gas is being produced from the leased premises in paying quantities. Such such payment shall be paid or tendered to the party or parties who at the time of such payment would be entitled to receive the royalties which would be paid under this lease if the well were in fact producing. The payment or tender of royalties and shut-in royalties may be made by check or draft. Any timely payment or tender of shut-in royalties which is made in a bona fide attempt to make proper payment, but which is erroneous in whole or in part as to parties or amounts, shall nevertheless be sufficient to prevent termination of this lease in the same manner as though a proper payment had been made if lessor shall record such error within 90 days after lessor has received written notice thereof by certified mail from the party or parties entitled to receive payment together with such written corrections (or certified copies thereof) as are necessary to enable lessor to make proper payment. The amount realized from the sale of gas on or off the premises shall be the price established by the gas sales contract entered into in good faith by lessor and gas purchaser for such term and under such conditions as are customary in the industry. Price shall mean the net amount received by lessor after giving effect to applicable regulatory orders and after application of any applicable price adjustments specified in such contract or regulatory orders.

4. This is a paid-up lease and lessor shall not be obligated during the primary term hereof to commence or continue any operations of whatever character or to make any payments hereunder in order to maintain this lease in force during the primary term, however, this provision is not intended to relieve lessor of the obligation to pay royalties on actual production pursuant to the provisions of Paragraph 3 hereof.

5. Lessor is hereby granted the right and power, from time to time, to pool or combine this lease, the land covered by it or any part or portion thereof with any other land, leases, mineral estates or parts thereof for the production of oil or gas. This pooled hereinunder shall not exceed the standard proportion unit fixed by law or in the Oil Conservation Laws of the Energy and Minerals Department of the State of New Mexico or by any other lawful authority for the pool or area in which said land is situated, plus a tolerance of ten percent. Lessor shall file written unit designations in the county in which the premises are located and such units may be designated from time to time and either before or after the completion of wells. Drilling operations, as or production from any part of any such unit shall be considered for all purposes, except the payment of royalty, as operations conducted upon or production from the land described in this lease. There shall be allocated to the land covered by this lease included in any such unit that portion of the total production of pooled minerals from wells in the unit, after deducting any used in lease or unit operations, which the net oil or gas acreage in the land covered by this lease included in the unit bears to the total number of surface acres in the unit. The production so allocated shall be considered for all purposes, including the payment or delivery of royalty, to be the entire production of pooled minerals from the portion of said land covered hereby and included in said unit in the same manner as though produced from said land under the terms of this lease. Any pooled unit designated by lessor, as provided herein, may be dissolved by lessor by recording an appropriate instrument in the county where the land is situated at any time after the completion of a dry hole or the cessation of production on said unit.

6. If at the expiration of the primary term there is no well upon said land capable of producing oil or gas, but lessor has commenced operations for drilling or reworking, therein, this lease shall remain in force so long as operations are prosecuted with no cessation of more than 180 consecutive days, whether such operations be on the same well or on a different or additional well or wells, and if they result in the production of oil or gas, so long thereafter as oil or gas is produced from said land. If after the expiration of the primary term, all wells upon said land should become incapable of producing for any cause, this lease shall not terminate if lessor commences operations for additional drilling or for reworking within 180 days thereafter. If any drilling, additional drilling or reworking operation, hereunder result in production, then this lease shall remain in full force so long thereafter as oil or gas is produced hereunder.

7. Lessor shall have the use of oil, gas and water from said land, except water from lessor's wells and tanks, for all operations hereunder, and the royalty shall be computed after deducting any so used. Lessor shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed by lessor on said land, including the right to draw and remove all casing. When required by lessor, lessor will bury all pipe lines on cultivated land below ordinary plow depth, and no well shall be drilled within two hundred feet (200 ft.) of any residence or barns on or near said land without lessor's consent. Lessor shall have the privilege, at his risk and expense, of using gas from any gas well on said land for slaves and smoke lights in the principal dwelling thereon, out of any surplus gas not needed for operations hereunder.

8. The rights of other party hereinunder may be assigned in whole or in part and the provisions hereof shall extend to their heirs, executors, administrators, successors and assigns, but no change in the ownership of the land or in the ownership of, or rights to receive, royalties or shut-in royalties, however accumulated, shall operate to enlarge the obligations or diminish the rights of lessor, and no such change or division shall be binding upon lessor for any purpose until 90 days after lessor has been furnished by certified mail or lessor's principal place of business with acceptable instruments or certified copies thereof constituting the choice of title from the original lessor. If any such change in ownership occurs through the death of the owner, lessor may, at its option, pay or tender any royalties or shut-in royalties in the name of the deceased or to his estate or to his heirs, executors or administrators until such time as lessor has been furnished with evidence satisfactory to lessor as to the persons entitled to such sum. As assignee of this lease or whole or in part shall, to the extent of such assignment, release and discharge lessee of any obligations hereunder, and, if lessor or assignee of part or parts hereof shall fail or make default in the payment of the proportionate part of royalty or shut-in royalty due from such lessor or assignee or fail to comply with any of the provisions of this lease, such default shall not affect this lease so far as it covers a part of said lands upon which lessor or any assignee thereof shall properly comply or make such payment.

9. Should lessor be prevented from complying with any express or implied covenant of this lease, or from conducting drilling or reworking upon lands hereinunder, or from producing oil or gas hereinunder by reason of scarcity, or inability to obtain or use equipment or material, or by operation of force majeure, or by any federal or state law or any order, rule or regulation of governmental authority, then while so prevented, lessor's day shall be suspended, and lessor shall not be liable for failure to comply therewith, and this lease shall be extended while and as long as lessor is prevented by any such cause from conducting drilling or reworking operations or from producing oil or gas hereinunder, and the time while lessor is so prevented shall not be counted a grace lease, anything to the contrary notwithstanding.

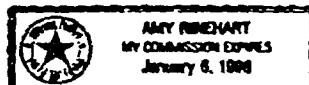

10. Lessor hereby warrants and agrees to defend the title to said land and agrees that lessee at its option may discharge any tax, mortgage or other lien upon said land, and in the event lessor does so it shall be subrogated to such lien with the right to enforce same and to apply royalties and shut-in royalties payable hereunder toward satisfying same without impairment of lessor's rights under the agreement, if this lease covers a less interest in the oil or gas or all or any part of said land than the interest and undivided fee simple interest (whether lessor's interest is herein specified or not) then the royalties, shut-in royalties, and other payments, if any, accruing from any part as to which this lease covers less than such full interest, shall be paid only in the proportion which the interest therein, if any, covered by this lease bears to the whole and undivided fee simple estate therein. Should any one or more of the parties named above as lessor fail to execute this lease, it shall nevertheless be binding upon the party or parties executing the same.

11. Lessor, or his successors, heirs and assigns, shall have the right at any time to surrender this lease, in whole or in part, to lessor or his heirs, successors, and assigns by delivering or mailing a release thereof to the lessor, or by placing a release thereof of record in the county in which said land is situated, thereafter lessor shall be relieved from all obligations, expressed or implied, of the agreement as to acreage so surrendered, and thereafter the shut-in royalty payable hereunder shall be reduced in the proportion that the acreage covered hereby is reduced by said release or releases.

EXHIBIT "A"

Attached to and made a part of that certain oil and gas lease dated August 25, 1997, but effective December 7, 1997, by and between Erma Stokes Hamilton, lessor, and Ameristate Oil & Gas, Inc., lessee:

12. Notwithstanding anything contained hereinabove to the contrary, it is understood and agreed that at the expiration of the primary term, this lease shall terminate as to all lands covered hereby not included in or otherwise allocated to a "well unit" as hereinafter defined, unless lessee is producing oil, gas or other hydrocarbons from any well on the leased premises, or lands pooled therewith, or is drilling upon said lands across the expiration of the primary term as provided for in the body of this lease, and does not allow more than 180 days to elapse between the completion or abandonment of one well on such land and the commencement of another well thereon until the leased premises have been "fully developed," as hereinafter defined. Operations for drilling of the first such development well must be commenced (a) within 180 days after the expiration of the primary term if production is established under this lease prior to the expiration of the primary term, or (b) within 180 days of completion of the well which is being drilled, tested or completed across the expiration of the primary term. Should lessee fail to timely commence a well in accordance with aforesaid 180 days continuous drilling or development prior to the point in time the leased premises have fully developed then this lease shall terminate as to all lands not included in or otherwise allocated to a well unit. For the purpose hereof, the term "well unit" shall mean the proration or spacing unit created for a well capable of producing oil and/or gas or other hydrocarbons in paying quantities as in accordance with the applicable rules and regulations of the New Mexico Oil Conservation Division or other governmental authority having jurisdiction, and the term "fully developed" shall mean the point in time when the entirety of the leased premises has been included in a well unit or units as defined. The date of completion of a well shall be the date of a potential test of a producing well and the date of plugging if a dry hole or abandoned well. At the end of the continuous drilling program, if any, this lease will automatically terminate as to all lands covered hereby which have not been so fully developed and as to lands so fully developed shall terminate as to all depths lying more than 100' below the total depth drilled.

13. Payment of shut-in gas well royalties will not be permitted to maintain this lease in force for any period longer than two consecutive years, without the written consent of Lessor.
