Re: See Properties Listed Below
Eddy County, New Mexico

This is notification that ARCO Permian, A Unit of Atlantic Richfield Company has amended the gas surface-commingling permit for the Little Box Canyon area. The gas from each well included in the surface commingle is metered separately prior to the movement off lease, and the individual well volumes are allocated back to the well based on metered production. The gas is gathered, compressed through one compressor, and sold through one central sales point.
