

BEFORE THE NEW MEXICO OIL CONSERVATION DIVISION

**RECEIVED**

FEB 18 2003

**APPLICATION OF POGO PRODUCING COMPANY  
FOR APPROVAL OF A PILOT PRESSURE  
MAINTENANCE PROJECT AND TO QUALIFY  
THE PROJECT FOR THE RECOVERED OIL TAX  
RATE, EDDY COUNTY, NEW MEXICO.**

Oil Conservation Division

Case No. 13022

**APPLICATION**

Pogo Producing Company ("Pogo") applies for an order approving a pilot pressure maintenance project, and qualifying the project for the recovered oil tax rate. In support thereof, Pogo states:

1. Pogo is the operator of State of New Mexico Oil and Gas Lease LH-1523, covering the SE $\frac{1}{4}$  of Section 2, Township 22 South, Range 31 East, N.M.P.M., Eddy County, New Mexico (the "lease"). Pogo's address is P.O. Box 10340, Midland, Texas 79702 (Attention: R. Scott McDaniel).

2. Pogo proposes to institute a pilot pressure maintenance project on the lease by the injection of water into the Brushy Canyon member of the Delaware Mountain Group (Lost Tank-Delaware Pool) through the State 2 Well No. 5, located 1300 feet from the South and East lines (Unit P) of Section 2.

3. The initial project area will comprise the SE $\frac{1}{4}$  of Section 2. A plat outlining the project area, and marking the locations of the initial injection and producing wells, is attached hereto as Exhibit A.

4. Pogo requests that the pressure maintenance project be qualified for the recovered oil tax rate, pursuant to the Enhanced Oil Recovery Act (L. 1992, Ch. 38) and Division Rule 30. Project data includes:

- (a) Number of initial producing wells: 4.
- (b) Number of initial injection wells: 1.
- (c) Capital cost of additional facilities: \$200,00.00.
- (d) Estimated total project cost: \$775,000.00.
- (e) Estimated total value of incremental production recovered from the project: \$2,375,000.00.
- (f) Anticipated injection commencement date: May 1, 2003.
- (g) Type of fluid injected: Produced (Delaware) water.
- (h) Anticipated injection volumes: 6000 BWPD maximum.

5. A Form C-108 for the injection well and the project is attached hereto as Exhibit B.

**WHEREFORE**, Pogo requests that the Division (i) approve the injection application and the pilot pressure maintenance project, including a provision allowing administrative approval for expansion of the project area, (ii) qualify the project as an enhanced oil recovery project, and (iii) certify the project for the recovered oil tax rate.

Respectfully submitted,

James Bruce  
P.O. Box 1056  
Santa Fe, New Mexico 87504  
(505) 982-2043

Attorney for Pogo Producing Company

## VERIFICATION

STATE OF TEXAS                           §  
   §  
COUNTY OF MIDLAND                     §

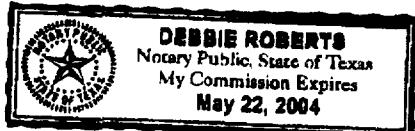

Mark Kelley, being duly sworn upon his oath, deposes and states: He is a petroleum engineer employed by Pogo Producing Company, he is familiar with the matters set forth in the foregoing Application, and the statements therein are true and correct to the best of his knowledge.

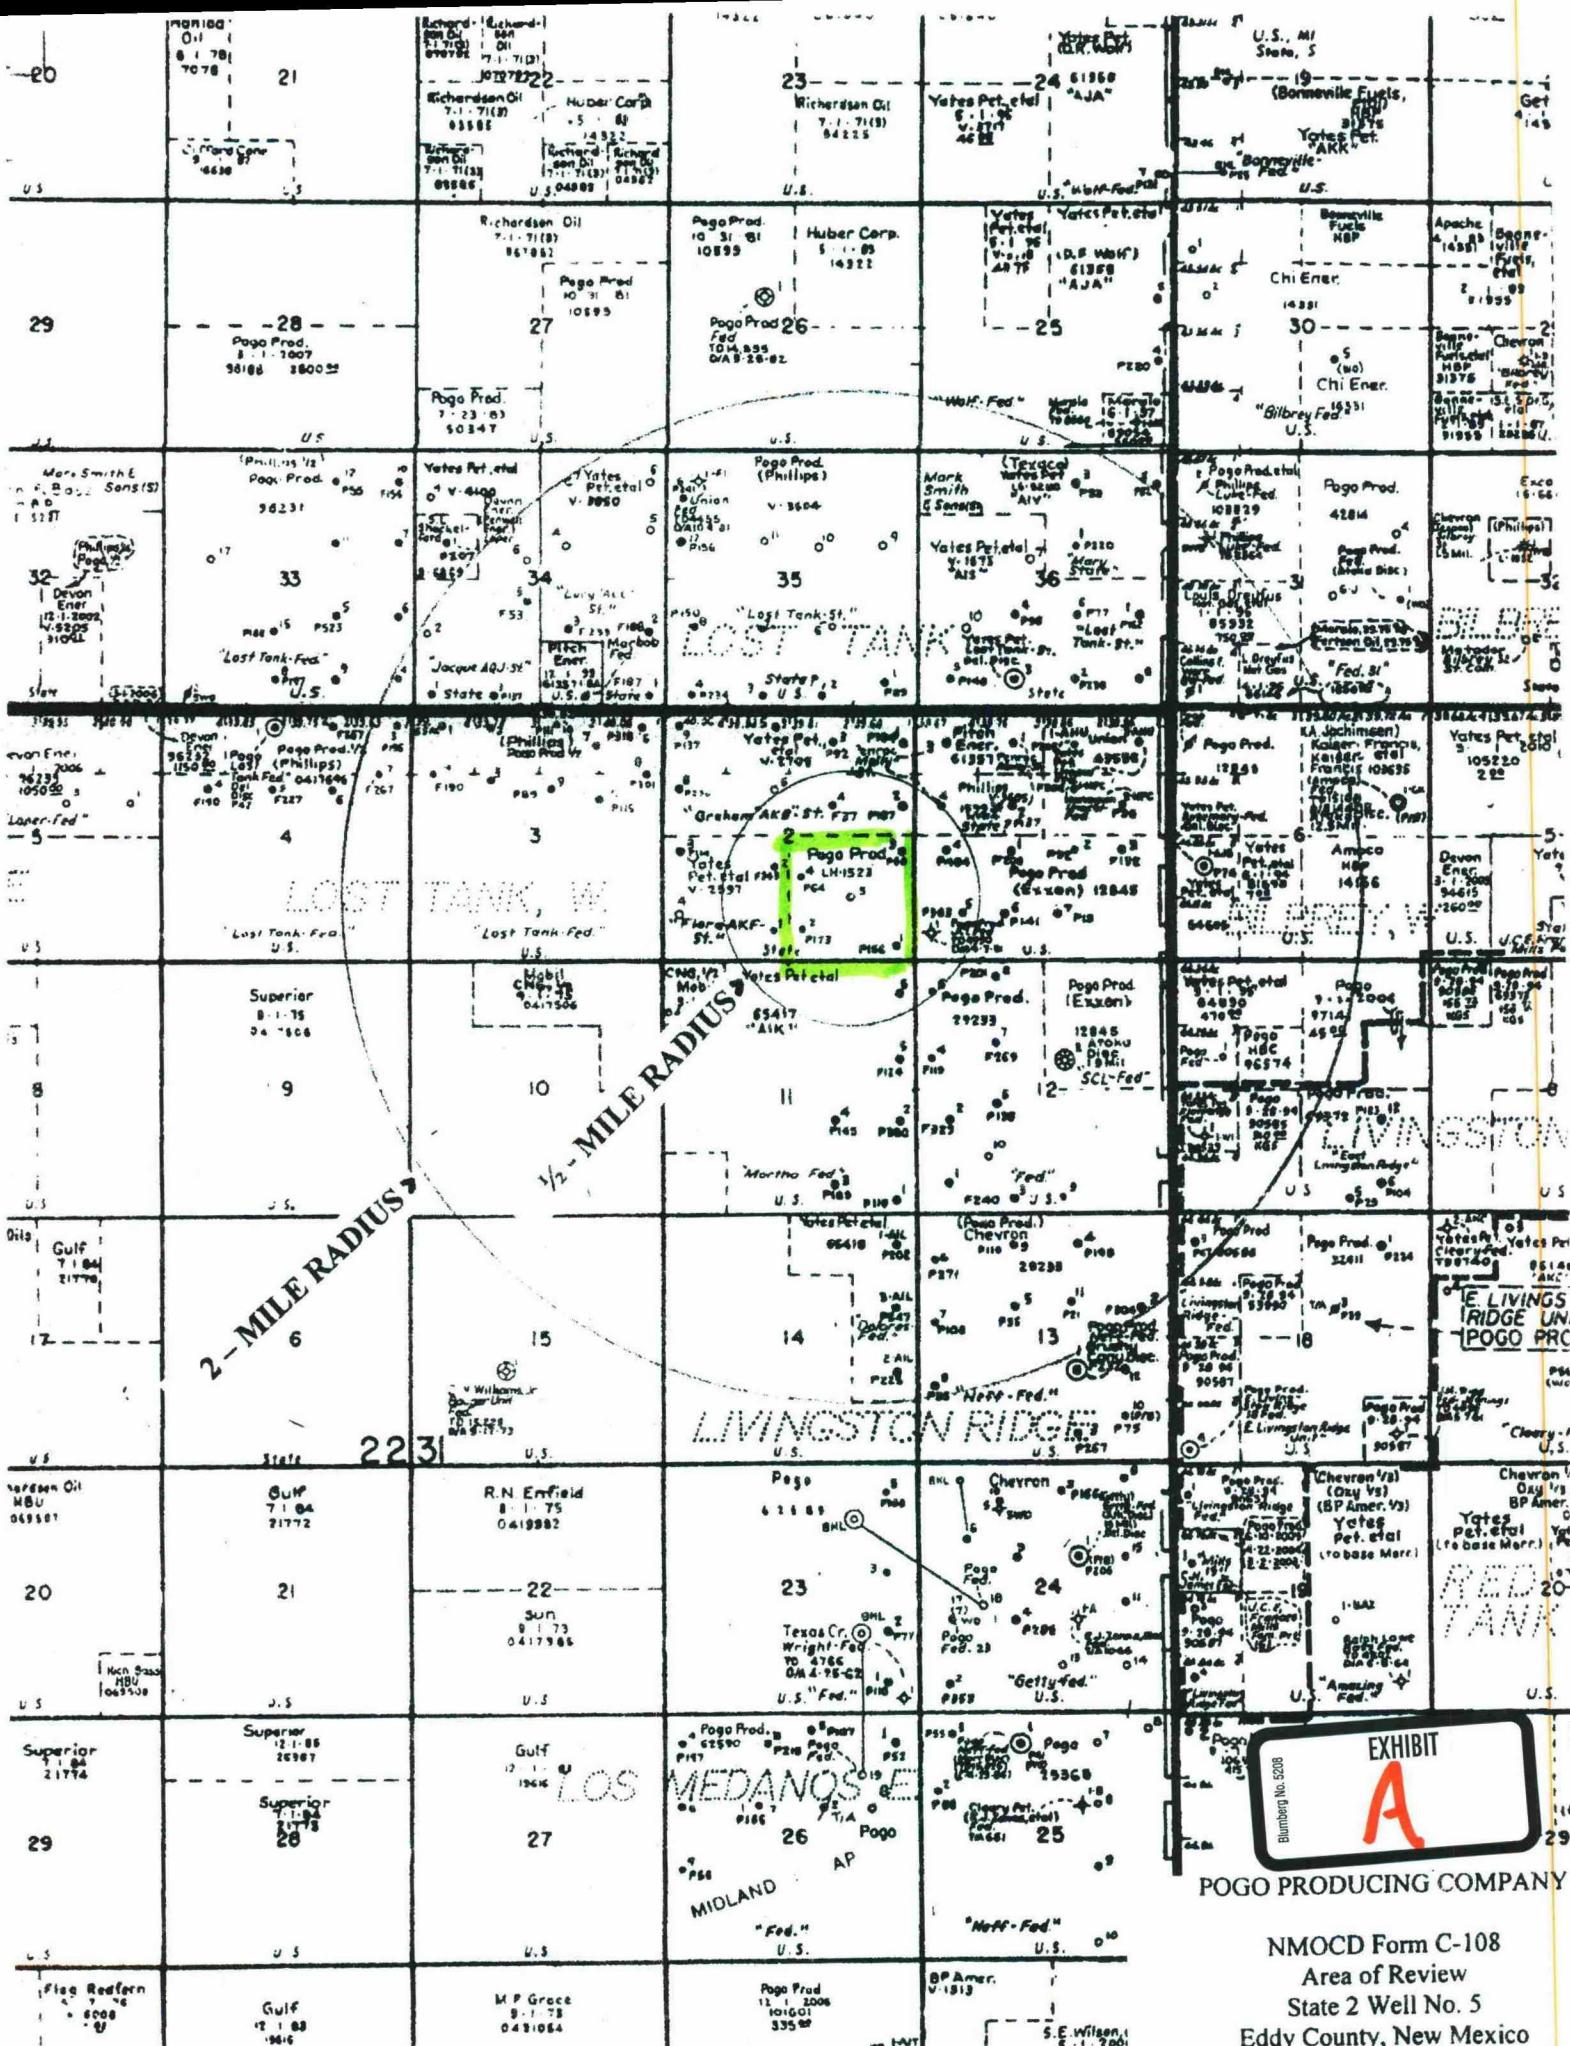

*Mark Kelley*

MARK KELLEY

SUBSCRIBED AND SWORN TO before me this 18<sup>th</sup> day of February, 2003, by Mark Kelley.

My commission expires:

*Debbie Roberts*  
\_\_\_\_\_  
Notary Public in and for the State of Texas

Pogo Producing Company  
State 2 Well No. 5

APPLICATION FOR AUTHORIZATION TO INJECT

- I. Purpose:  Secondary Recovery  Pressure Maintenance  Disposal  Storage  
Application qualifies for administrative approval?  yes  no
- II. Operator: Pogo Producing Company  
Address: P.O. Box 10340, Midland, TX 79702  
Contact party: Mark V. Kelley Phone: (915) 685-8100
- III. Well data: Complete the data required on the reverse side of this form for each well proposed for injection. Additional sheets may be attached if necessary.
- IV. Is this an expansion of an existing project?  yes  no  
If yes, give the Division order number authorizing the project \_\_\_\_\_
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
- \* VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.
- VII. Attach data on the proposed operation, including:
1. Proposed average and maximum daily rate and volume of fluids to be injected;
  2. Whether the system is open or closed;
  3. Proposed average and maximum injection pressure;
  4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and
  5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- \*VIII. Attach appropriate geological data on the injection zone including appropriate lithologic detail, geological name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such source known to be immediately underlying the injection interval.
- IX. Describe the proposed stimulation program, if any.
- \* X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division they need not be resubmitted.)
- \* XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.
- XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground source of drinking water.
- XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.
- XIV. Certification

I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.

Name: Thomas E. Gentry, P.E. Title Petroleum Engineer

Signature: Thomas E. Gentry Date: 2/7/03

- \* If the information required under Sections VI, VIII, X, and XI above has been previously submitted, it need not be duplicated and resubmitted. Please show the date and circumstance of the earlier submittal.

DISTRIBUTION: Original and one copy to Santa Fe with one copy to the district office.

NOTICE: Surface owners or offset operators must file any objections to requests for hearings  
of administrative applications within 15 days from the date this application was  
made out to them.

NO ACTION WILL BE TAKEN ON THE APPLICATION UNTIL PROPER PROOF OF NOTICE HAS BEEN  
SUBMITTED.

- (4) a rotation that interested parties must file objections of requests for hearings within 15 days.  
the oil conservation division, P. O. Box 2088, Santa Fe, New Mexico 87501 within 15  
days.
- (3) the formation name and depth with expected maximum injection rates and pressures;  
and
- (2) the intended purpose of the injection well; with the exact location of single  
well, its or the section, township, and range location of multiple wells;
- (1) the name, address, phone number, and contact party for the applicant;
- where an application is subject to administrative approval, a proof of publication must  
be submitted. Such proof shall consist of a copy of the legal advertisement which was  
published in the county in which the well is located. The contents of such advertisement  
must include:
- is to be located and to each leasehold operator within one-half mile of the well  
certified or registered mail, to the owner of the surface of the land on which the well  
will be drilled and that a copy of the application has been furnished, by  
all applicants must furnish proof that a copy of the application has been furnished,  
by

#### XIV. PROOF OF NOTICE

- (5) Give the depth to and name of the next higher and next lower oil or gas zone in the  
area of the well, if any.
- (4) Give the depths of any other perforated intervals and detail on the sacks of cement or  
bridge plugs used to seal off such perforations.
- (3) State if the well was drilled for injection or, if not, the original purpose of the well.
- (2) The injection interval and whether it is perforated or open-hole.
- (1) The name of the injection formation and, if applicable, the field or pool name.
- items must be submitted for each injection well covered by this application. All  
items must differ, information shown on schematics need not be shown  
only when addressed for the initial well. Responses for additional wells need be shown  
as "typical data sheet" rather than submitted for each well. All responses need be repeated.

Division District offices have supplies of well Data Sheets which may be used of which  
may be used as models for this purpose. Applications for several identical wells may  
submit a "typical data sheet" rather than submit the data for each well.

(4) The name, model, and setting depth of the packer used or a description of any other  
packing system or assembly used.

(3) A description of the tubing to be used including its size, lining material, and  
setting depth.

(2) Each casing string used with its size, setting depth, sacks of cement used, hole  
size, top of cement, and how such top was determined.

(1) Lease name; Well No.; location by Section, Township, and Range; and footage  
location within the section.

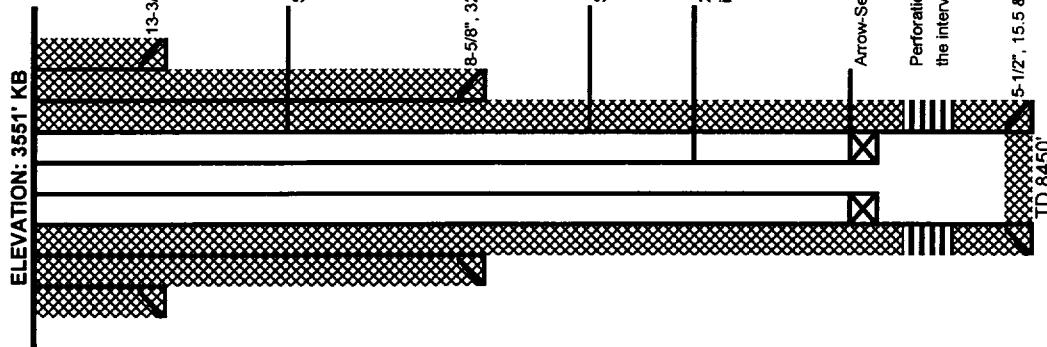

A. The following well data must be both in tabular and schematic form and shall include:  
The data must be submitted for each injection well covered by this application.

ANALYSIS - SANTA ROSA WATER

Chemical and radiochemical analyses of water from test hole H-5  
Water produced from the Santa Rosa Sandstone, sample taken 5/24/78

Alkalinity Field (mg/l as HCO <sub>3</sub> )	200
Bicarbonate FET-FLD (mg/l as HCO <sub>3</sub> )	240
Nitrogen, NO <sub>2</sub> + NO <sub>3</sub> Dissolved (mg/l as N)	0.36
Hardness (mg/l as CaCO <sub>3</sub> )	150
Hardness, noncarbonate(mg/l as CaCO <sub>3</sub> )	150
Calcium Dissolved (mg/l as CA)	56
Magnesium, Dissolved (mg/l as MG)	51
Sodium, Dissolved (mg/l as NA)	280
Potassium, Dissolved (mg/l as K)	25
Chloride, Dissolved (mg/l as CL)	120
Sulfate, Dissolved (mg/l as SO <sub>4</sub> )	530
Fluoride, Dissolved (mg/l as F)	1.2
Silica, Dissolved (mg/l as SiO <sub>2</sub> )	11.0
Boron, Dissolved (ug/l as B)	890
Solids Residue at 105 Deg C, Dissolved (mg/l)	1200

POGO PRODUCING COMPANY

NMOCD Form C-108, Item XI  
Application Well: State 2 Well No. 5  
Sec 2, T-22-S, R-31-E  
Eddy County, New Mexico

**PROPOSED ADVERTISEMENT**

**Case 13022:** Application of Pogo Producing Company for approval of a pilot pressure maintenance project and to qualify the project for the recovered oil tax rate pursuant to the Enhance Oil Recovery Act, Eddy County, New Mexico. Applicant seeks approval to institute a pilot pressure maintenance project in the Lost Tank-Delaware Pool on State Lease LH-1523, comprising the SE% of Section 2, Township 22 South, Range 31 East, NMPM, by the injection of water into the State "2" Well No. 5, located in Unit P of Section 2. Applicant further seeks to qualify the project for the recovered oil tax rate pursuant to the "New Mexico Enhanced Oil Recovery Act" (Laws 1992, Chapter 38, Sections 1 through 5). The project area is located approximately 28 miles east of Carlsbad, New Mexico.
