My dear Jim:

As requested in your letter of May 15,
enclosed is the notice for hearing to be held in
Santa Fe on June 23, which notice is self-explanatory.

There is also to be another hearing on June
26, which relates to the consideration by the Com-
mission of a smaller spacing and smaller units of
production than are now in use, to effect San Juan
County only.

With best good wishes,

Very truly yours,

Re: Public hearing to be held at the Capitol,
Santa Fe, New Mexico, on the 23d day of
June, 1939, for the consideration of
the revising, modifying and amending the
existing proration plan for Hobbs Field,
Lea County, designated as Order No. 48 of
the Commission, and the existing proration
plan for Monument Field, Lea County,
designated as Order No. 33 of the Commis-
sion.

Dear Mr. Selinger:

In response to your letter of May 22 regarding the moving up of the date of the above captioned hearing, please be advised that service by publication has already been completed and it would tend to confusion. If, however, the situation were a matter of moving the hearing in question to a later date, then there would be sufficient time to re-publish the notices and time for all concerned to receive information as to such change.

As requested by you, enclosed please find Orders Nos. 33 and 48 of the Commission.

Very truly yours,

A. Andreas
State Geologist and
Member of the Commission.

My dear Judge:

Enclosed is a Notice of Hearing affecting the Hobbs and Monument Fields. It is understood that the main matter to be considered in the revision of the respective proration orders for those two fields is the matter of allocating by acreage in lieu of the present plan wherein acreage is only partly considered in conjunction with bottom-hole pressure.

Also enclosed is a Notice of Hearing which affects spacing and unit of production for San Juan County only. That area appears to have a very shallow lenticular horizon which justifies the consideration of a closer spacing and smaller unit of production than exist generally for the state. The operators of San Juan County have petitioned for this hearing.

Dear Mr. Yarbrough:

Enclosed is a notice of hearing to be held at Santa Fe which affects the Hobbs and Monument Fields. Please call at the Hobbs Daily News-Sun to see that that paper publishes the notice which I am today sending it and to urge them to be sure to return their publisher's affidavit. I have had considerable difficulty in getting that paper to send the publisher's affidavit promptly. It is all important for jurisdiction of the Commission sitting in its quasi judicial capacity, so please keep an eye on this paper to see that publication is made and the publisher's affidavit made and forwarded to Santa Fe.

Also enclosed is a Notice of Hearing which affects spacing and unit of production matters for San Juan County only. That area has a shallow lenticular producing horizon which appears to justify a smaller spacing and smaller unit of production than those in effect for the state generally.
