BEFORE: Mr. E. S. (Johnny) Walker
 Mr. William B. Macey

TRANSCRIPT OF HEARING

MR. MACEY: The hearing will come to order, please. The next case is Case 906. Mr. Rhodes?

MR. RHODES: I would like to have Mr. Stanley sworn in this case.

S. J. S T A N L E Y,

called as a witness, having been previously duly sworn, testified as follows:

DIRECT EXAMINATION

By MR. RHODES:

Q Will you state your name and position for the Commission?

A S. J. Stanley, Engineer for the Oil Conservation Commission.

Q Mr. Stanley, in connection with Case 906, pertaining to

Southeastern New Mexico nomenclature, would you have any recommendation to the subject matter set out in this case?

A Yes, sir. I recommend that new pools be created as advertised, and extensions made to existing pools as advertised.

Q Will you give the basis for these recommendations?

A Yes, sir, I have prepared exhibits pertaining to each subparagraph of Case 906, and rather than to go ahead and read the casing set or the top of perforations in either case, I would rather submit these exhibits and let them stand as a matter of record for their particular producing depths.

Q Were these exhibits prepared by you or under your supervision?

A Yes, sir.

(Marked Commission's Exhibits "A" through "I", for identification.)

MR. RHODES: I should like to introduce Exhibits "A" through "I", if the Commission please.

MR. MACEY: Do you have an exhibit in Section (i) of the case?

A Yes, sir, I have.

MR. MACEY: That is the Blinebry case that was omitted from the Blinebry Pool order? Is there objection to the introduction of the Exhibits "A" through "I" in Case 906? Without objection they will be introduced in evidence. Any questions of the witness? All of the proposed extensions are exactly as advertised, no changes?

A Yes, sir.

MR. MACEY: If no questions of the witness, the witness may be excused, and the case taken under advisement.
