Dear Mr. Catron:

I am enclosing herewith a statement which shows the volume of gas each producer sold to the Johnson Company and our company for use in the Herkness Plant from the time the plant started to January 1, 1954. Also enclosed is a graph which shows each producer's percentage of delivery to the total volume purchased for use in the Herkness Plant for the same period.

I am also mailing under separate cover two maps, one showing the new gas pools as determined by the Conservation Commission and the other showing our pipelines and the acreage we have under contract for gas to supply our Herkness plant.

If there is any other information that you need, please advise.

Yours very truly,

H. E. Norrick
