Mr. R. R. Spurrier  
New Mexico Oil Conservation Commission

Dear Sir:

In your letter of April 21, 1947, you transmitted a copy of Supplement No. 6 (effective as of April 1, 1947) to Order No. 633 which was made in response to recommendations of the New Mexico Nomenclature Committee, dated February 27, 1947. I am glad that you called our attention to the fact that the Commission can not delete any part of any pool without formal notice and an open hearing. In the future, our recommendations will be made to conform with this regulation. In checking Supplement No. 6, it is noticed that under Item 4, the Grayburg Jackson Pool is extended, and in doing so, the wording also deletes part of what is now Loco Hills Pool in order to extend the Grayburg Jackson. It is thought that this was an oversight, since it was pointed out that in order to delete this, a hearing would be necessary.

This is being called to your attention so that the matter can be posted for hearing if it is so desired. I would suggest that you discuss this with Mr. Staley and it is possible that he could file petition for the Nomenclature Committee.

We would still be glad to have you come down for some of our future meetings of the Lea County Petroleum Society, and in the event that you can foresee a convenient date in the future, I would appreciate your advising me so that a program could be planned.

Best regards,

*Ralph L. Gray*
