Dear Mr. Lovering:

This refers to your application to produce leases E-1830 and B-9446 into the same tank battery.

This is your authority and you are hereby permitted as long as the emergency may exist and until the Commission may hear your application in open hearing, to produce the two leases in question into the same tank battery.

You understand you should make application to the Commission for an open hearing in this matter. This is to stand as an emergency order to alleviate any hardship upon you or your company until and only until, the next open hearing before the Commission which will probably be held sometime near the end of August.

We have checked with the State Land Office and with our own attorney, and will advise you in a few days whether you may do so, or whether you will have to petition for a hearing.
