Case 203
December 29, 1949

Mr. Don McCarrick
Bujac Building
Carlsbad, New Mexico

Dear Don:

This is in reply to your letter of December 23, in which you request the transcript of the hearing in the matter of the 80-acre spacing in the Crossroads pool, as presented by the Oil Development Company, in connection with the hearing held on November 22, 1949. Also, you have requested a copy of the original order entered in 1948 setting the spacing pattern for the Crossroads Pool, which we are enclosing herewith.

As our files contain only the original transcript, we request that you obtain a copy from our Artesia office.

We are forwarding a copy of this letter, and your letter of December 23 to Governor Mabry and Mr. Shepard, because we concur with this idea that any decision in this case will be precedent-setting, and we should therefore be very careful and the order should be very carefully drawn.

Very truly yours,

R. R. Spurrier

Dear Dick:

You and I were discussing the matter of 80-acre spacing in the Crossroads Pool a few days ago. In my opinion a serious question confronts the Commission due to the application of the Oil Development Company for an exception to the spacing pattern.

Before giving you any advice as to what steps, if any, should be taken in regard to this question, I should like to be furnished with a transcript of the hearing at which the Oil Development Company presented its case. Also I should like to have a copy of the original order entered in 1948 setting the spacing pattern for the Crossroads Pool.

If you will please furnish me with these, I shall study the matter and advise you further.

Yours very truly,

Don G. McCormick
