Re: Case 249, Application of Amerada
Petroleum Corporation.

Dear Mr. Surrier:

We would appreciate your mailing us a copy of the application of Amerada Petroleum Corporation in the above numbered case, being an application for 80 acre proportion units in the La Jara-Silero-Devonian Pool.

It has also come to our attention that Phillips Petroleum Corporation has filed an application for 80 acre spacing in the Benton field, and we would also appreciate a copy of said application.

Very truly yours,

A. M. Swarthout

Mr. Bill Macy,
Chief Engineer
Oil Conservation Commission,
Santa Fe, New Mexico.

Dear Bill:

Thank you for sending the copy of the proposed order in the Magruder matter. I will send this back to you so you will have it on Monday morning.

There is one favor that I would like to ask of you if it is practicable. Eugene Adair, of Texas Pacific Coal & Oil Company which is interested in the hearing on April 15 on the Bagley Field, has to get to a Railroad Commission hearing in Austin and since the Knowles and Hightower Fields matter, which have been postponed on various occasions, and the Bagley matter will probably be on the docket together anyway, I would appreciate it if the Commission could hear the testimony in the Bagley case first and I feel sure Amerada will have no objection to it.

Very truly yours,

Jack M. Campbell

Gentlemen:

In compliance with Order R-69-A, you are required to take bottom-hole pressures in the Bagley-Siluro-Devonian Pool in November 1952.

An examination of the previous pressures reveals a wide range in shut-in times for different surveys. In order that there may be a similarity in shut-in time on each well, I believe that it would be advisable for you to maintain shut-in times as close to 48 hours as operating practices will permit.

Yours very truly,

W. B. Macey
Chief Engineer

Santa Fe, New Mexico

Re: Case No. 249

Dear Mr. Spurrier:

As attorneys for Texas Pacific Coal & Oil Company we hereby request a postponement of the above styled case from the hearing on April 16, 1953, to the regular monthly hearing of May 19, 1953. We have consulted with Amerada and have been advised that they concur in our request for a postponement.

The existing order covering this field expires by its terms May 1, 1953, and we will make the appropriate application for an emergency order covering the period from May 1 to the date of the May hearing.

Mr. Campbell of this office, who has handled this matter from its inception, is unable to attend the April hearing of the Commission.

Very truly yours,

ATWOOD, MALONE & CAMPBELL

Gentlemen:

In compliance with our order no. R-69-C dated May 21, 1953, concerning the Hadley Siluro-Devonian Pool, Lea County, New Mexico, we are submitting the attached tabulation of production data for the month of July 1954.

Contained in the tabulation is a monthly report for each well showing the allowable, the actual oil produced, the oil runs, water production, gas production, cumulative oil production, cumulative water production, and cumulative gas production.

Yours very truly,

K.V. Stephenson
