TRANSCRIPT OF PROCEEDINGS
CASE No. 272

BEFORE THE
OIL CONSERVATION COMMISSION

May 22, 1951

Case No. 272: This is a nomenclature case extending and
creating pools in southeastern NewMexico:

Magnolia, #1 State "A", 32-19S-27 E

Lawton Oil Corporation, Goldston St. A-1,

30-15S-33E

(Notice of Publication read by Mr. Graham.)

MR. McCORMICK: We have data in the files on which to base these
new pools. If no one has any suggestions for the limits of
the pool or for the names why the Commission will use its own
data to prepare the order.

MR. SPURRIER: Very well, is there anyone who has any comment
on this case or any objections? If not, the Commission will
extend or create the pool in the usual manner based upon the
data submitted in a letter in each of these cases.

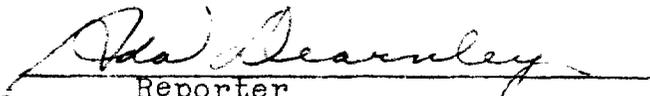

If there is nothing further in this case, we will take up
Case No. 273.

C E R T I F I C A T E

I HEREBY CERTIFY that the foregoing and attached transcript
of the hearing in Case No. 272, before the Oil Conservation
Commission, on May 22, 1951, at Santa Fe, is a true and complete
record of the same to the best of my knowledge, skill and
ability.

Dated at Albuquerque, this 4th day of June, 1951.
