

Case 294

BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

In the Matter of the Application
of Roland Rich Woolley for Approval
for an Oil Well to be Drilled in an
Unorthodox Location

TO THE HONORABLE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

The petitioner, herein appearing by his representative, J. L. Briscoe of Artesia, New Mexico, hereby makes application for an order approving the drilling of an unorthodox location some 990' North of the South line and 25' West of the East line of Section 22, being in the SE/4 SE/4 of Section 22, Township 17 South, Range 30 East, N. M. P. M., Eddy County, New Mexico; said location being closer to the boundary lines of the unit involved than is permitted by general rules and regulations, and in support thereof, petitioner states as follows:

1. That there is a dry hole owned by the petitioner, drilled to the top of the San Andres, located 990' North of the South line and 990' West of the East line of Section 22, in SE/4 SE/4 of said Section, which petitioner thinks is too far West. Petitioner desires to obtain permission to drill this well on unorthodox location for the reason that said well will more efficiently drain the area, promote the interest of conservation by adding to the ultimate oil recovery from the lease, and recover oil which will not be recovered by wells now drilled.

2. That said unorthodox location will be known as the Roland Rich Woolley, Woolley-Arnold No. 16-A, the royalty under such lease being held by the United State of America.

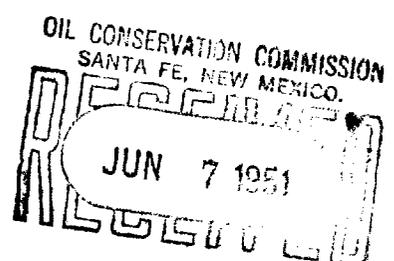

3. That the royalty interests under the unorthodox location is identical to that of the 40 acre tract to which the said location is closer than an orthodox location. That the lease in question as well as all surrounding leases are on lands belonging to the United States.
