S. J. STANLEY

having been first duly sworn, testified as follows:

DIRECT EXAMINATION

By MR. WHITE:

Q State your name and be seated.

A S. J. Stanley, Engineer for the New Mexico Oil Conservation Commission. In the Case of 629 I recommend that all extensions and deletions be adopted as advertised, but I do not recommend that the creations be adopted. These creations refer to Case 629, Paragraph (a) and Paragraph (b) which deal with the creation of the Big Eddy-

Brushy Canyon Pool and the creation of the Big Eddy-Lower Delaware Pool. The reason for my recommendation is that I request a postponement for further study of this field to properly classify it. In support of my testimony I wish to present plats in evidence.

(Oil Conservation Commission's Exhibit
No. 1 Marked for Identification)

MR. SPURRIER: Without objections they will be admitted.

(Witness excused)
