Gentlemen:

Western Natural Gas Company has informed us that they have requested the approval of an unorthodox gas proration unit under the provisions of Rule 5, Order No. R-520, covering their State McDonald #11 Well, located 990 from N & W, 14-22-36, Lea County, New Mexico. We have been advised that this unit consists of 320 acres situated in the N 1/2 Section 14, T22S, R36E of Lea County, New Mexico.

Please accept this as our waiver of notice and hearing on this application since we have no objection to the formation of the specified unit.

Very truly yours,

Ohio Oil Company

Re: Western Natural Gas Company  
#11 State McDonald  
Lea County, New Mexico

Gentlemen:

We are advised that the Western Natural Gas Company has requested approval of a 320 acre non-standard gas proration unit under provisions of Rule 5. This unit described as the N/2 of Section 14-22S-36E covers their No. 11 State McDonald well located as follows:

990' from the North and West lines of Section  
14-22S-36E, Lea County, New Mexico.

Sinclair Oil & Gas Company, as an offset operator, waives any objections to the designation of this non-standard proration unit above described and to the usual waiting period after filing of application.

Yours truly,

P. C. Brooke  
Vice-President

Re: Administrative Order NSP-67

Attention: Mr. Paul C. Wright

Gentlemen:

On December 27, 1954, by virtue of the provisions of Administrative Order NSP-67, I approved the formation of a non-standard gas proration unit consisting of the following described acreage in the Jalmat Gas Pool:

Section 14, Township 22 South, Range 36 East  
N/2

Information available to me at this time indicates that I exceeded the authority granted to me by the provisions of Rule 5-b of Order R-520, (Jalmat Pool Rules) due to the fact that the third paragraph of Rule 5-a specifically limits the maximum amount of acreage that may be assigned to a gas well, the amount being governed by the well location.

The formation of a 320-acre non-standard proration unit with your State MacDonald Lease, Well No. 11, located 990 feet from the North line and 990 feet from the West line is contrary to the provisions of this rule.

On February 16, 1955, this Commission will hold hearings directed to you as operator for you to show cause why the acreage assigned your State MacDonald Well No. 11, NW/4 NW/4 Section 14, Township 22 South, Range 36 East, NMPM, Jalmat Gas Pool, should not be reduced to 160 acres in accordance with the provisions of Paragraph 3 of Rule 5-a of Order R-520. The description of this 160 acre unit is as follows:

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

-2-

Section 14, Township 22 South, Range 36 East  
NW/4

This proposed reduction would be effective March 1, 1955. You will of course be afforded the opportunity to present any testimony or evidence to support the formation of the proration unit as it now exists.

This letter is being directed to you so that you can prepare your case, if you so desire. A copy of the advertisement will be mailed to you when available.

Very truly yours,

W. B. MACEY,  
Secretary-Director

WBM/ir

Western Natural Gas Company  
National Standard Building  
Houston 2, Texas

Attention: Mr. Paul C. Wright

Administrative Order NSP-67

Gentlemen:

Reference is made to your application for approval of a 320-acre non-standard gas proration unit in the Jalmat Gas Pool consisting of the following acreage:

Twp. 22 South, Rge. 36 East, NMPM  
N/2 of Section 14

It is understood that this unit is to be ascribed to your State McDonald Well No. 11, located 990' from the North and West lines of Section 14, Township 22 South, Range 36 East, NMPM, Lea County, New Mexico.

Inasmuch as you enclosed waivers from the offset operators agreeing to the formation of the proposed unit, it is possible for immediate approval to be granted. Therefore, by authority granted me under provisions of Rule 5, Section (b)-5 of the Special Rules and Regulations of the Jalmat Gas Pool, as set forth in Order R-520, you are hereby authorized to operate the above described acreage as a non-standard gas proration unit, with allowable to be assigned thereto in accordance with pool rules, based upon the unit size of 320 acres.

Very truly yours,

W. B. Macey  
Secretary - Director
