Re: Jalmat Gas Pool  
Lea County, New Mexico  
Non-Standard Gas Proration Unit

Gentlemen:

It is respectfully requested that the Conservation Commission schedule a hearing to consider our application for approval of a 320 acre non-standard gas proration unit embracing the S/2 Section 18-T22S-R36E, and to be assigned to the Closson "A" No. 3, Jalmat Gas Pool, Lea County, New Mexico.

Cities Service Oil Company is the owner of federal oil and gas leases covering the S/2 Section 18-22S-36E. The Closson "A" No. 3, located 1980' from South line, and 660' from East line, Section 18, is now completed as a gas well within the vertical limits of the Jalmat Gas Pool, and is assigned a non-standard gas proration unit of 160 acres.

A hearing is requested for consideration of an exception to Rule 5A, Order R-520, permitting assignment of a 320 acre non-standard gas proration unit to subject well. The proposed non-standard gas proration unit consists of contiguous quarter/quarter sections within a single governmental section, and the entire area may reasonably be presumed to be productive of gas. Upon favorable approval of this application by the Conservation Commission, application will be made to the federal government for the unitization of the leases covering the S/2 Section 18-22S-36E.

A Flat is attached showing the above described lands, and offset properties.

All operators owning interests in Section 18, and within 1500' of the Closson "A" No. 3, have been furnished copies of this request by registered mail.

Respectfully submitted,  
CITIES SERVICE OIL COMPANY
