Gentlemen:

By this letter The Texas Company makes application for approval of a non-standard gas proration unit as an exception to Rule 7(a), Special Rules and Regulations for the Tubb Gas Pool, and states the following:

1. The Texas Company is owner and operator of an oil and gas lease known as A. H. Blinebry (NCT-1) Lease comprising, among other lands, the E/2 Section 19, T-22-S, R-38-E, Lea County, New Mexico, which contains 320 acres. Said acreage will comprise the proposed non-standard proration unit.
2. A. H. Blinebry (NCT-1) Well No. 7, is located as follows:
1974' from east line and 1980' from north line of Section 19-22S-38E, Lea County, N.M.
3. Application has been filed to complete Well No. 7 as an oil-gas dual with oil from the Blinebry Oil Pool and gas from the Tubb Gas Pool.
4. The 320 acres lying within the boundaries of the of the E/2 of Section 19 may reasonably be presumed to be productive of gas.
5. There are no wells on the proposed unit acreage which are completed within or producing from the vertical limits of the Tubb Gas Field.
6. The attached plat shows the location of the proposed unit, the proposed well, and the offset acreage with Tubb gas wells noted.

7. The creation of the proposed non-standard proration unit and the assignment of the acreage therein to the above mentioned well is in the interest of conservation and will protect correlative rights.
8. That by copy of this letter, all offset operators to the proposed unit acreage have been notified of this application.

Therefore, applicant respectfully requests that this matter be set down for hearing on the earliest available docket before either an examiner or before the Commission at its regular monthly hearing, and after said hearing, the Commission enter its order establishing a non-standard proration unit in the manner proposed herein.

Respectfully submitted,

THE TEXAS COMPANY
