Gentlemen:

Continental Oil Company respectfully requests administrative approval under the provisions of Rule 5 (b) of the Special Rules and Regulations for the Jalmat Gas Pool of Order No. R-520 for an enlargement to 240 acres of the existing approved 160-acre non-standard gas proration unit for its Lockhart B-31 No. 6 well located 1980 feet from the North and West lines of Section 31, T21S, R36E, Lea County, New Mexico in the Jalmat gas Pool.

The unit is proposed to consist of the NW/4 and E/2 SW/4 of Section 31, T21S, R36E.

In support of this request we should like to point out that the proposed unit conforms with the requirements of said Rule 5 (b) in all respects as follows:

1. Said unit consists of contiguous quarter-quarter sections (and/or lots).
2. Said unit lies wholly within a single governmental section.
3. The entire proposed unit may be reasonably presumed to be productive of gas.
4. The length or width of said unit does not exceed 5,280 feet.
5. Copies of this application have been furnished this date by registered mail to all offset operators and all operators within 1,500 feet of said well, as required by said Rule 5 (b).

A plat is attached hereto showing to the best of our knowledge and belief the proposed unit, the location of the well and the offset ownership.

In view of the facts set out herein it is respectfully requested that the Commission enter an order approving the non-standard gas proration unit for Continental Oil Company's Lockhart B-31 No. 6 well as described above.

R. L. ADAMS
Division Superintendent
of Production
New Mexico Division

STATE OF NEW MEXICO)
