Wilson Oil Company
P. O. Box 627
Santa Fe, New Mexico

Attention: Raymond Lamb

Dear Mr. Lamb:

We have received your letter dated February 14 together with a copy of your application to the Oil Conservation Commission for exception to the casing program set out in the Commission's order R-111-A as regards the drilling of your proposed well in the NE 1/4 NE 1/4 of Sec. 21, T-20-S, R-34-E.

The Potash Corporation of America holds potash rights on the area and we understand that your proposal has been discussed with Mr. Don Protz of that company.

International offers no objection to the well, provided that your amended casing program meets with the approval of the Commission.

Yours very truly,

Adolph V. Mitterer
