Re: Hudson & Hudson - Hover  
Federal #1  
NESE Sec. 28, T 20 S, R 34 E

Gentlemen:

A copy of your letter of April 10 to Mr. A. L. Porter and the New Mexico Oil Conservation Commission requesting a hearing for an exception to the casing program set forth in Rule R-111-A, relative to the above mentioned well, has been received.

Potash Company of America has no objections to your program as outlined, provided the order, when issued by the Oil Conservation Commission, contains the paragraphs quoted from Case No. 1215, Order No. R-968, dated March 22, 1957, listed below:

Findings - Nos. 5, 6 and 7  
Ordered - Nos. 2, 3 and 4

Yours very truly,

  
D. E. Protz  
Chief of Exploration

DEP. nina

Case No. 1215  
Order No. R-968  
March 22, 1957

FINDINGS:

5. That the production string should be cemented throughout its entire length in the event commercial oil or gas production is encountered.

6. That the aforementioned casing program will confine the water, oil and gas to the strata in which they naturally occur and will afford adequate protection for the potash deposits in the area.

7. That in any event, the applicant should make adequate provisions for the protection of potash deposits in the area.

ORDERED:

2. That in the event commercial oil or gas production is found, the applicant may pull all other casing except the production string.

3. That the production string be cemented throughout its entire length in the event commercial oil or gas production is encountered.

4. That, notwithstanding the foregoing, the applicant shall make adequate provisions for the protection of the potash-bearing strata regardless of the conditions encountered in drilling said well.
