New Mexico Oil Conservation Commission  
P. O. Box 871  
Santa Fe, New Mexico

Gentlemen:

We are advised Tidewater Oil Company will drill its Coates "C" Well No. 8, 660' South and 1880' West of the Northeast Corner of Section 24, Township 25 South, Range 37 East, and further, an application has been filed for permission to dually complete said well in such manner that the Drinkard and McKee reservoirs may be produced through parallel strings of tubing.

This is to advise that Amerada Petroleum Corporation, as an off-set operator, waives objection to the proposed method of completion.

Yours very truly,

*R. S. Christie*
