Dear Mr. Elliott:

We enclose two copies of Order R-972-A issued May 28, 1958, by the Oil Conservation Commission in Case 1433, which was heard on May 6th at Santa Fe before an examiner.

Very truly yours,

A. L. Porter, Jr.
Secretary - Director

OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Date 5-14-58

CASE NO. 1433

HEARING DATE DSN SF 9am 5-6

My recommendations for an order in the above numbered case(s) are as follows:

Enter an order approving the immediate conversion of the following wells to water injection:

- Cap Unit 31-2
- Cap Unit 31-8
- Cap Unit 32-12
- Cap Unit 32-14
- ~~Cap Unit 32-4~~
- ~~Cap Unit 32-6~~
- ~~Cap Unit 32-10~~

The grounds therefor being that the water flood is in a state of imbalance and that injection into certain wells (these 4) is necessary to restore the balance to prevent waste (premature break thru, etc.)

Authorizes the Commission Administrative approval of conversion to water injection of applicants' Cap Unit 32-4, 32-6, and 32-10, ^{to the effect of said wells by 54 65 partially} upon submission of proof to the Commission ^{directly} that said well has responded to the effects of water flood and that a need exists for its conversion.
